

Sankalp Semiconductor expands internationally with its operations in Malaysia

Sankalp Malaysia to act as a gateway for business expansion in Southeast Asia

SUNNYVALE, CA, UNITED STATES, January 8, 2018 /EINPresswire.com/ --

[Sankalp Semiconductor](#), a design service company offering comprehensive digital & mixed signal SoC services and

solutions, today announced establishing a fully owned subsidiary in Petaling Jaya, Malaysia. The company has a strong presence in India, USA and Europe markets. The Malaysia office will enable the company to address the growing need of semiconductor design services from large semiconductor and system design companies. The growth of the Hi-Tech Southeast Asia market is

attributed to the rapid expansion and robust growth in mobile, automotive, medical and IoT sectors.

“

Our Malaysia office will allow close proximity with our existing local customers and offer ease of operation for the new customers in the hi-tech semiconductor digital and analog semiconductor space.”

*Uday Ramachandran VP-
Business Development (India
& APAC)*

“Malaysia is a strategic location to multiple of our customers. Our office in Malaysia will allow us to maintain close proximity with our existing local customers and offer ease of operation for the new customers in the hi-tech semiconductor digital and analog semiconductor space.” said Uday Ramachandran Vice President - Business Development (India & APAC), Sankalp Semiconductor.

Sankalp Semiconductor was founded in 2005 with a focus to serve the semiconductor companies primarily offering [analog & mixed signal design](#) services. Today, Sankalp with a team of 700+ engineering professionals has design centers in Hubli,

Bengaluru, Kolkata in India and Ottawa, Canada. The company provides unique advantage to its semiconductor customers by enabling them at any point of semiconductor services life cycle with the ability to provide end-to-end solutions.

About Sankalp Semiconductor

Sankalp Semiconductor offers an integrated portfolio of services and solutions to its customers in key semiconductor domains including analog & mixed signal, digital, high-speed physical interface IP, Embedded Memory Compiler, IOs and EDA modelling. Sankalp Semiconductor is a preferred semiconductor design service partners to multiple Fortune 500 companies in the Automotive, Consumer, Networking, Wireless, IoT, Medical electronics and Foundry space. The company enables its customers to achieve their time-to-market window by delivering first pass silicon designs and engage with product engineering teams across the globe to design System-on-Chip. Sankalp Semiconductor is based in Sunnyvale, California, with offices in USA, India, Canada, Germany and Malaysia. www.sankalpsemi.com
