

BluePi Consulting achieves the AWS Big Data Competency; strengthens its partnership with AWS

GURGAON, HARYANA, INDIA, January 8,

2018 /EINPresswire.com/ -- [BluePi](#)

[Consulting](#), a 5-year-old technology and consulting company based out of India, has reached another milestone. It has achieved Amazon Web Services Big Data Competency status.

“

This competency demonstrates our continued focus and commitment to enable our clients with the large scale, high speed big data solutions on AWS.”

*Pronam Chatterjee, Founder
and CEO, BluePi*

The AWS Competency Program has been designed to recognize APN partners who have demonstrated technical proficiency and proven customer success in specialized solutions areas. Attaining an AWS Competency allows partners to differentiate themselves to customers by showcasing expertise in a specific solution area. APN Big Data Competency Partners, like BluePi, have demonstrated capabilities in enabling customers derive insights from data using techniques of Analytics, Visualisation, Data Science and neural Networks.

BluePi's own analytics solution [piStats](#), caters to analytics, push notifications and personalized recommendation requirements for many media houses across India and processes more than a billion events per month.

“This competency demonstrates our continued focus and commitment to enable our clients with the large scale, high speed solutions on AWS. Since 2012, we have been utilizing various AWS services like EMR and Redshift to build and deliver on-cloud big data solutions” says Pronam Chatterjee, Founder and CEO, BluePi.

Very soon, BluePi will be releasing new features in piStats to drive more value and better conversion for its customers.
