About [Wheelchair](#)

The global wheelchair market is a key part of the global clinical mobility aids market. From a top-down perspective, Technavio has analyzed the global clinical mobility aids market as a parent market to set the context in which the global wheelchair market will be analyzed. The global clinical mobility aids market includes both low-end and high-end products. Low-end mobility aids include canes, walkers, and crutches. They are commonly used by the geriatric population. On the other hand, high-end mobility aids such as manual wheelchairs and powered wheelchairs are preferred in healthcare facilities to provide patients with the required mobility during their hospital stay.

Technavio's analysts forecast the global wheelchair market to grow at a CAGR of 4.21% during the period 2018-2022.
