Asia Pacific captured the largest share in overall food thermometer market in 2016. This can be attributed to the presence of major manufacturing companies and high number of restaurants in the region. Furthermore, Asia Pacific is expected to continue its dominance during the forecast period. Moreover, rapid urbanization and development of restaurants in the region is anticipated to impel the growth of the food thermometer market in the upcoming years. North America is anticipated to witness robust growth during the forecast period. Government initiatives to increase awareness and adoption rate among residential users is anticipated to positively impact the growth of the food thermometer market. Apart from this, food safety regulations are resulting in surged adoption from commercial end users such as restaurants.

## Government Initiatives and Regulations

Government initiatives and campaigns such as thermy educational campaign to increase the awareness regarding the [benefits of food thermometer](#) are anticipated to fuel the growth of global food thermometer market during the forecast period. Moreover, stringent food safety regulations to reduce the number of food borne diseases (caused by pathogens in food) are also anticipated to positively impact the growth of the food thermometer market.

## Rising Adoption in Commercial End Users

Rising awareness about under cooking ill effects and increasing concern toward health and hygiene are some of the major factors which are increasing the adoption of food thermometers in restaurants. Apart from this, development of e-commerce distribution channels to distribute food thermometers is anticipated to augment the growth of the food thermometer market.

Although, high cost of food thermometers and lack of awareness are some of the factors is likely to dampen the growth of food thermometer market during the forecast period.

The report titled “Food Thermometer Market: Global Demand Analysis & Opportunity Outlook 2024” delivers detailed overview of the global food thermometer market in terms of market segmentation by product, by technology, by price range, by end user, by distribution channel and by region.

Further, for the in-depth analysis, the report encompasses the industry growth drivers, restraints, supply and demand risk, market attractiveness, BPS analysis and Porter's five force model.
