

Learning Management Industry 2018- By Plan Future Business Decisions Using the Forecast Figures

Learning Management Industry Business & Investment Opportunity (2018 – 2023) Market Research Reports

PUNE, INDIA, January 8, 2018 /EINPresswire.com/ -- The major forces driving the growth of the [learning management](#) system market include the byod trend and increasing mobile penetration and horizontal growth/cross sectional knowledge. Moreover, increased penetration of internet and digital learning and laws and regulations to address the issues of employee training and certification are also some of the factors that are driving the market growth. However lack of customization and in-home content authoring feasibility options for end-users, and integration complexity with end user systems may hinder the market growth. In the middle of difficulty lies opportunity such as the mobile learning and gamification, integration with social media, and cloud-based deployment of lms. The possible challenges for the market growth are customized courses and training programs, and limited after-sales support. But key players in the market are overcoming the challenges with continual improvement and innovation.
