

Global Micro Mobile Data Center Market is Expected to Reach \$10.26 billion by 2023

Market Research Report on Global Micro Mobile Data Center Market

RAIPUR, INDIA, January 8, 2018
/EINPresswire.com/ --

Report Sellers has added a new market research report "[Micro Mobile Data Center - Global Market Outlook \(2017-2023\)](#)" to its offerings.

According to Report, the [Global Micro Mobile Data Center market](#) is expected to grow from \$2.36 billion in 2016 to reach \$10.26 billion by 2023 with a CAGR of 23.3%. Some of the key factors fueling the market growth include rising demand for standardized infrastructure, increasing demand for green data centers and growing digital traffic. However, lack of awareness is one of the major factors restricting the market growth.

Micro-mobile data centers deliver quick and safe access to compute and data resources. These data centers even have continuous power supplies, fire protection, associated management tools, security systems, and in-built cooling systems. Therefore, these centers offer easy installation, are simple to use, and are also cost-effective. These micro-mobile data centers are useful in disaster prone regions and remote locations for even temporary deployments.

Depending on organization size, large enterprises are increasingly adopting micro mobile data center solutions, as these solutions maintain remote office management. This is anticipated to increase the market share during the forecast period. North America held the largest market and the trend is expected to continue during the forecast period due to the presence of a large number of data centers.

Some of the key players in global Micro Mobile Data Center market include Dell Inc., Huawei Technologies Co., Ltd. Hewlett Packard Enterprise Development LP, Panduit Corp., Schneider Electric SE, Eaton Corporation PLC, Hitachi, Ltd., International Business Machines Corporation, Instant Data Centers, LLC, Dataracks, Rittal GmbH & Co. Kg, Zellobox Pty Ltd., Vertiv Co., Canovate Group and AST Modular.

Global Micro Mobile Data Center Market Research Report

What does the Report Offers

- Market share assessments for the regional and country level segments
- Market share analysis of the top industry players
- Strategic recommendations for the new entrants
- Market forecasts for a minimum of 7 years of all the mentioned segments, sub segments and the regional markets
- Strategic recommendations in key business segments based on the market estimations
- Competitive landscaping mapping the key common trends
- Company profiling with detailed strategies, financials, and recent developments

Report Scope

Global Micro Mobile Data Center Market has been segmented by rack units covered, organization sizes covered, applications covered, end users covered and regions covered

Rack Units Covered:

Above 40 Ru

25 to 40 Ru

Up to 25 Ru

Organization Sizes Covered:

Large Enterprises

Small and Medium-Sized Enterprises

Applications Covered:

Remote Office Support

Instant DC and Retrofit

Mobile Computing

High Density Networks

Other Applications

End Users Covered:

Healthcare

IT and Telecom

Retail

Banking, Financial Services, and Insurance

Education

Manufacturing

Energy

Government and Defense

Other End Users

Regions Covered:

North America

US

Canada

Mexico

Europe

Germany

France

Italy

UK
Spain
Rest of Europe
Asia Pacific
Japan
China
India
Australia
New Zealand
South Korea
Rest of Asia Pacific
South America
Argentina
Brazil
Chile
Rest of South America
Middle East & Africa
Saudi Arabia
UAE
Qatar
South Africa
Rest of Middle East & Africa
