

SMi's Helicopter Technology Central and Eastern Europe 2018 conference will return to Prague

SMi Reports: SMi's Helicopter Technology Central and Eastern Europe 2018 conference will return to Prague, Czech Republic

LONDON, WATERLOO, UNITED KINGDOM, January 8, 2018 /EINPresswire.com/ -- [SMi's Helicopter Technology Central and Eastern Europe 2018](#) conference will return to Prague, Czech Republic for its third successful year on the 23rd and 24th May 2018.

[The two-day conference](#) this year is designed to unite military helicopter procurement and technology experts with one goal, to enhance existing and future air support operation across air, land and sea. SMi's past Helicopter Technology events have been recognised for excellence by many leading defence forces in both Central and Eastern Europe and have hosted more senior heads of Air Force and Helicopter Commands than any other helicopter event in Europe.

As Central and Eastern Europe and the Baltic States continue to be a key focus for defence equipment upgrades, the rotary fleet remains a key asset in both domestic and international military operations. Therefore, a focused conference is essential to ensure continued advancement of capability, equipment, and joint interoperability.

Event Highlights:

1. Keynote briefing from Major General Jaromir Sebesta, Air Force Commander of the Czech Air Force
2. Hear from representatives from the V4 nations: Czech Republic, Poland, Hungary, and Slovakia
3. Listen to detailed updates on helicopter programmes and procurement goals the US Marine Corps, French Air Force, Joint Helicopter Command, and Commando Helicopter Force
4. A unique opportunity to explore new technologies and programmes from industry and exhibitors
5. The only regionally dedicated military helicopter conference in 2018
