

# CBD Wellness Guide Launches to Educate On Medicinal Benefits of Cannabidiol

PHOENIX, AZ, UNITED STATES, January 8, 2018 /EINPresswire.com/ -- [CBDWellnessGuide.com](http://CBDWellnessGuide.com) is a new website featuring information on the medicinal benefits of cannabidiol (CBD), a non-psychoactive compound found in hemp which shows great promise in the treatment of a range of ailments including epilepsy, depression, anxiety, diabetes, addiction, and much more. CBD Wellness Guide is intended to be a not-for-profit, bias-free platform which is open to collaboration.

The digital age has created a CBD information paradox. Consumers can easily gain instant access to countless articles and news stories about CBD. However, the vast majority of the content is published by companies selling the product, making it difficult for consumers to determine which information is credible, accurate, and current. CBD Wellness Guide is intended to be an impartial and fact-based resource for information obtained from research journals, article, news releases, case studies, interviews, and contributions from experts in CBD for medicinal use.

“

The more people are armed with accurate information, the better the entire industry will fare.”

*Cody Salisbury*

CBD Wellness Guide will utilize videos, infographics, articles, and forums to help those seeking information on CBD develop a deeper understanding using the mediums with which they are most comfortable. A dedicated team of passionate, professional writers, designers, and videographers are

gearing up to produce new content on a weekly basis. CBD Wellness Guide hopes to become a valuable information source not only for consumers, but for businesses, academics, and researchers who are interested in the efficacies of CBD.

CBDWellnessGuide.com is sponsored and made possible by a grant from CBD distributor, [High Country Group, LLC](http://HighCountryGroup.LLC). Phoenix-based cannabis marketing firm [R&D Cannabis Marketing](http://R&DCannabisMarketing) has been contracted to develop the site and its content.

CBD is quickly becoming a widely accepted health and medical supplement. Hemp products such as CBD make up one of the fastest growing markets in the US, with sales projected to reach \$1 billion annually by 2020.

Cody Salisbury, CEO and president at High Country Group, is motivated to bolster the industry as a whole by “offering consumers a clearer understanding of the benefits and legality of CBD, not just to

get them comfortable with buying the products, but also using them properly. The more people are armed with accurate information, the better the entire industry will fare.”

CBDWellnessGuide.com officially launches on January 1st, 2018. The publishers have set a goal of making the site a household name as a source for accurate information about CBD presented in terms that the average consumer can easily understand.
