# Organic Trace Minerals for Animal Feeds Global Industry 2018 Sales, Supply and Consumption Forecasts to 2021

*The analysts forecast the global organic trace minerals for animal feeds market to grow at a CAGR of 7.76% during the period 2017-2021.*

PUNE, INDIA, January 9, 2018 / EINPresswire.com/ --

Global Organic Trace Minerals for Animal Feeds Market

Description

WiseGuyReports.Com adds" Global Organic Trace Minerals for Animal Feeds Market 2017-2021 "Research To Its Database.

Trace minerals play a vital role in numerous metabolic activities in animals. There are two sources of trace minerals: inorganic and organic. Inorganic sources include the common sulfates, chlorides, oxides, and carbonates of the element, which have variations in terms of bioavailability. The other class, organic source, primarily includes chelates. Mineral chelates or organic trace minerals are developed to improve gut absorption and enhance bioavailability. Inorganic minerals interact with fiber, tannin, phytate, silicates, oxalate, or other minerals in the gastrointestinal tract, which may interfere with their absorption. The minerals become more stable and less reactive in the digestive tract of animals when they are bound to chelating agents, including amino acids or hydrolyzed proteins.

Covered in this report
The report covers the present scenario and the growth prospects of the global organic trace minerals for animal feeds market for 2017-2021. To calculate the market size, the report considers the revenue generated from the sales of organic trace minerals for animal feeds.

The market is divided into the following segments based on geography:
• APAC
• Europe
• North America
• ROW

The Global Organic Trace Minerals for Animal Feeds Market 2017-2021, has been prepared based on an in-depth market analysis with inputs from industry experts. The report covers the market landscape and its growth prospects over the coming years. The report also includes a discussion of the key vendors operating in this market.

Key vendors
• Alltech
• Balchem
• Kemin Industries
• NOVUS INTERNATIONAL
• Pancosma
• Tanke
• Zinpro

Other prominent vendors
• Aliphos
• AZOMITE Mineral Products
• Biochem Zusatzstoffe Handels- und Produktionsgesellschaft
• Global Animal Products
• Impextraco
• Norel
• Phibro Animal Health
• PREMEX
• Priya Chemicals
• QualiTech
• SUBONEYO Chemicals Pharmaceuticals
• VAMSO BIOTEC
• Wuhan Pharma Chemical

Market driver
• Higher bioavailability rates of organic trace minerals
• For a full, detailed list, view our report

Market challenge
• Rising acceptance of hydroxy trace minerals
• For a full, detailed list, view our report

Market trend
• Advancements in technology
• For a full, detailed list, view our report

Key questions answered in this report
• What will the market size be in 2021 and what will the growth rate be?
• What are the key market trends?
• What is driving this market?
• What are the challenges to market growth?
• Who are the key vendors in this market space?

Table of Contents -Major Key Points

PART 06: Global macroeconomic outlook
• Global livestock industry
• Global meat consumption pattern
• Animal feed industry

PART 07: Global animal feed additives market
• Global animal feed additives market
• Five forces analysis

PART 08: Market segmentation by livestock
• Global organic trace minerals for animal feeds market by livestock
• Global organic trace minerals for cattle feeds market
• Global organic trace minerals for poultry feeds market
• Global organic trace minerals for swine feeds market
• Global organic trace minerals for other animal feeds market

PART 09: Market segmentation by metal
• Global organic trace minerals for animal feeds market by metal
• Global organic trace minerals for animal feeds market by manganese
• Global organic trace minerals for animal feeds market by zinc
• Global organic trace minerals for animal feeds market by copper
• Global organic trace minerals for animal feeds market by iron
• Global organic trace minerals for animal feeds market by others

PART 10: Market segmentation by type of chelate
• Global organic trace minerals for animal feeds market by type of chelate

PART 11: Geographical segmentation
• Global organic trace minerals for animal feeds market by geography
• Organic trace minerals for animal feeds market in Europe
• Organic trace minerals for animal feeds market in APAC
• Organic trace minerals for animal feeds market in North America
• Organic trace minerals for animal feeds market in ROW

PART 12: Key leading countries
• Developed economies
• Emerging economies

PART 13: Decision framework

PART 14: Drivers and challenges
• Market drivers
• Market challenges

PART 15: Market trends
• Advancements in technology
• Rising use of water-soluble organic feed additives
• Increasing usage of organic trace minerals in poultry layer diets
• Vendors launching support services
• Development in medicated feed
• Rising demand for veterinary experts
