

Global Demulsifier Market is Expected to Reach \$2.88 billion by 2023

Market Research Report on Global Demulsifier Market

RAIPUR, INDIA, January 9, 2018
/EINPresswire.com/ --

Report Sellers has added a new market research report "[Demulsifier - Global Market Outlook \(2017-2023\)](#)" to its offerings.

According to Report, the [Global Demulsifier market](#) is expected to grow from \$2.08 billion in 2016 to reach \$2.88 billion by 2023 with a CAGR of 4.8%.

Rise in crude oil production, growing market for green demulsifiers, and increasing demand from emerging economies are some of the factors driving the market growth during the forecast period. However, stringent government regulations on using toxic chemicals are restraining the market growth.

By demulsifier type, oil soluble demulsifiers are leading the market with highest market value during the forecast period due to its properties in extrication water in oil emulsion in crude oil. Among all the application segments crude oil application is projected to command the market with largest market revenue over the forecast period. Growth in crude oil production among regions cause demand for the demulsifiers.

Middle East region commands the market with largest market revenue due to high availability of crude oil. Growing demand from U.S. is driving the North America market. Asia Pacific region is expected to witness high growth rate during the forecast period. The growth is attributed to the demand from petroleum refineries and crude oil processing stations.

Some of the key players in global demulsifier market include Akzonobel N.V., Baker Hughes Incorporated, BASF SE, Clariant AG, Cochran Chemical Company, Croda International PLC, Direct N-Pakt Inc., Ecolab Inc., Halliburton, Huntsman Corporation, Innospec Inc., Momentive Performance Materials Inc., Nova Star LP, Reda Oilfield, Rimpro India, RoEmex Limited, Schlumberger Limited, and The DOW Chemical Company.
