

# New SSD Digilant Storage Server Systems

*Digilant is a Michigan-based company that was founded on more than 24 years of experience of computer hardware support and custom enterprise server designs*

OKEMOS, MICHIGAN, USA, January 10, 2018 /EINPresswire.com/ -- New SSD Digilant Storage Server Systems [www.digilant.com](http://www.digilant.com)

Based in Okemos, MI, Digilant LLC, provider of customized Enterprise [NAS/SAN/SSD/JBOD](#) Storage Server System throughout the U.S.!

Digilant 3U Rackmount System

We offer a wide variety of chassis from towers to rack mount units from 1U all the way to 8U, which allows for capacities of up to 810 Terabytes and beyond (w/JBOD) of data storage running Microsoft Windows Storage Server 2016 and Linux (CentOS, Red Hat, Open-E) Solutions. These high quality and high performance enterprise solutions with our NEW SSD systems will not only simplify the way you secure, store, and serve data, but they are also scalable to meet future needs as well. We simply want to ensure our clients get the best Enterprise NAS and iSCSI SAN/SSD/JBOD systems to meet their needs today and down the road.

Digilant NEW SSD Enterprise Storage Servers are built on the Windows Storage Server 2016 X64 and Linux CentOS, Red Hat and Open-E OS platforms. All systems are 'custom' manufactured and pre-setup ready to go out of the box.

"We are a company that is very much customer focused," says Tarasiewicz. "Our customers come to us with individual storage solution needs and our goal is always to provide them with specific, customized solutions to meet those needs with one of BEST cost effective priced systems in the market today. The SSD along with standard HDD technology provides our clients with the power and versatility they demand."

Visit our site for the NEW Lineup of SSD Storage systems available now.
