

# Electron Microscopy Sample Preparation 2018 Segmentation, Application, Technology and Analysis Report Forecast to 2021

The analysts forecast the global electron microscopy sample preparation market to grow at a CAGR of 8.96% during the period 2017-2021.

PUNE, INDIA, January 11, 2018 /EINPresswire.com/ --

Global <u>Electron Microscopy Sample Preparation</u> <u>Market</u>

Description

WiseGuyReports.Com adds" Global Electron Microscopy Sample Preparation Market 2017-2021 "Research To Its Database.

Electron microscopy sample preparation involves various procedures employed to treat a sample to prevent degeneration and preserve the microscopic structure of the sample. Sample preparation is a vital step in analytical chemistry. Certain substances in samples may interfere with proper chemical analysis. They need to be treated before these samples can be observed under an analytical device or undergo further

processes. Electron microscopes are used to visualize biological samples clearly and in finer details as they obtain images and make nanoscale detections.

Covered in this report

The report covers the present scenario and the growth prospects of the global electron microscopy sample preparation market for 2017-2021. To calculate the market size, the report considers the revenue generated from the retail sales of equipment used for sample preparation sold to various end-users discussed in this report.

Get sample Report @ <a href="https://www.wiseguyreports.com/sample-request/1309329-global-electron-microscopy-sample-preparation-market-2017-2021">https://www.wiseguyreports.com/sample-request/1309329-global-electron-microscopy-sample-preparation-market-2017-2021</a>

The market is divided into the following segments based on geography:

Americas

- APAC
- EMEA

The Global Electron Microscopy Sample Preparation Market 2017-2021, has been prepared based on an in-depth market analysis with inputs from industry experts. The report covers the market landscape and its growth prospects over the coming years. The report also includes a discussion of the key vendors operating in this market.

## Key vendors

- Danaher (Leica Microsystems)
- Hitachi High-Technologies
- Thermo Fisher Scientific (FEI)
- JEOL

# Other prominent vendors

- Carl Zeiss
- Gatan
- SCIENION

#### Market driver

- Automated sample preparation systems creating high demand
- For a full, detailed list, view our report

### Market challenge

- High cost of equipment
- For a full, detailed list, view our report

#### Market trend

- Increasing industry-academia collaboration for research
- For a full, detailed list, view our report

#### Key questions answered in this report

- What will the market size be in 2021 and what will the growth rate be?
- What are the key market trends?
- What is driving this market?
- What are the challenges to market growth?
- Who are the key vendors in this market space?
- What are the market opportunities and threats faced by the key vendors?
- What are the strengths and weaknesses of the key vendors?

Table of Contents - Major Key Points

PART 01: Executive summary

PART 02: Scope of the report

PART 03: Research Methodology

PART 04: Introduction

Market outline

PART 05: Market landscape

- Market overview
- Five forces analysis

PART 06: Market segmentation by end-user

- Market overview
- Pharma and biotech companies
- Academic and research institutions
- Others

PART 07: Geographical segmentation

- Market overview
- Americas
- EMEA
- APAC

PART 08: Decision framework

PART 09: Drivers and challenges

- Market drivers
- Market challenges

PART 10: Market trends

- · Increasing industry-academia collaboration for research
- Increasing use of electron microscopy in advanced life science research

PART 11: Vendor landscape

Competitive scenario

PART 12: Key vendor analysis

- Danaher (Leica Microsystems)
- Hitachi High-Technologies
- IEOL
- Thermo Fisher Scientific (FEI)
- Other prominent vendors
