

Global Commercial Vehicle Tire Pressure Management System Market 2018 Share, Trend, Segmentation and Forecast to 2022

Wiseguyreports.Com Publish Report On -"Global Commercial Vehicle Tire Pressure Management System Market 2018 Share, Trend, Segmentation and Forecast to 2022"

PUNE, INDIA, January 11, 2018 /EINPresswire.com/ --

[Commercial Vehicle Tire Pressure Management System \(TPMS\) Market 2017](#)

TPMS is an electronic system, which provides real-time information about tire pressure by monitoring the air pressure inside the tires. The system basically comprises a potted tire pressure monitor sensor, which consists of a sensor chip. The sensor chip comes with integrated μ -controller and a transmitter that is designed to send signals to alert the driver of low pressure. These sensors are usually powered by lithium-ion battery and help in increasing fuel efficiency by continuously monitoring the tire pressure, which plays a key role in vehicle efficiency.

The analysts forecast the global commercial vehicle tire pressure management system (TPMS) market to grow at a CAGR of 10.38% during the period 2017-2021.

Covered in this report

The report covers the present scenario and the growth prospects of the global commercial vehicle tire pressure management system (TPMS) market for 2017-2021. The report presents a detailed picture of the market by way of study, synthesis, and summation of data from multiple sources.

The market is divided into the following segments based on geography:

- Americas
- APAC
- EMEA

Request a Sample Report @ <https://www.wiseguyreports.com/sample-request/2534431-global-commercial-vehicle-tire-pressure-management-system-tpms-market-2017-2021>

The report, Global Commercial Vehicle Tire Pressure Management System (TPMS) Market 2017-2021, has been prepared based on an in-depth market analysis with inputs from industry experts. The report covers the market landscape and its growth prospects over the coming years. The report also includes a discussion of the key vendors operating in this market.

Key vendors

- Continental
- ZF
- NXP Semiconductors
- DENSO
- Sensata Technologies

- WABCO

Other prominent vendors

- Bendix Commercial Vehicles Systems
- Datanet
- Pacific Industrial
- Ryder Fleet Products
- Schrader-Bridgeport International

Market driver

- Discount in insurance premium for adoption of vehicle safety system like TPMS
- For a full, detailed list, view our report

Market challenge

- High cost associated with direct TPMS
- For a full, detailed list, view our report

Market trend

- Development of Bluetooth-enabled TPMS
- For a full, detailed list, view our report

Key questions answered in this report

- What will the market size be in 2021 and what will the growth rate be?
- What are the key market trends?
- What is driving this market?
- What are the challenges to market growth?
- Who are the key vendors in this market space?

Complete Report Details @ <https://www.wiseguyreports.com/reports/2534431-global-commercial-vehicle-tire-pressure-management-system-tpms-market-2017-2021>

Table of Contents –Analysis of Key Points

PART 01: Executive summary

PART 02: Scope of the report

PART 03: Research Methodology

PART 04: Introduction

- Types of tire pressure monitoring system
- Regulatory Framework
- Commercial vehicle TPMS: market dynamics
- Value chain analysis

PART 05: Market landscape

- Market overview
- Market size and forecast
- Five forces analysis

PART 06: Market segmentation by end-user

- Global commercial vehicle TPMS market segmentation by end-user
- Global commercial vehicle TPMS market by OEMs
- Global commercial vehicle TPMS market by aftermarket

PART 07: Market segmentation by vehicle type

- Global commercial vehicle TPMS market segmentation by vehicle type
- Global commercial vehicle TPMS market by LCVs
- Global commercial vehicle TPMS market by HCVs

PART 08: Geographical segmentation

- Segmentation of commercial vehicle TPMS market by geography
- Commercial vehicle TPMS market in Americas
- Commercial vehicle TPMS market in EMEA
- Commercial vehicle TPMS market in APAC

PART 09: Decision framework

PART 10: Drivers and challenges

- Market drivers
- Market challenges

PART 11: Market trends

- Development of Bluetooth-enabled TPMS
- Growing popularity of battery-less tire pressure sensor
- Developments toward lightweight TPMS
- Development of powerful MEMS sensors
- Increasing demand from emerging economies through aftermarket

PART 12: Vendor landscape

- Competitive benchmarking
- Other prominent vendors

PART 13: Key vendor analysis

- Continental
- ZF
- NXP Semiconductors
- DENSO
- Sensata Technologies
- WABCO

.....Continued
