*Author Shares His Calling Through His Personal Experiences*

CRANSTON, RI, UNITED STATES, January 11, 2018 /EINPresswire.com/ -- People don't choose their calling, it chooses them, and author [Dr. Jean Gerard Rhau](#) is a living testament to this statement. His book entitled [When the 7.0 Magnitude Earthquake Hit Haiti: My Personal Experiences](#) birthed from a calling which came to him during a very unexpected day.

Dr. Jean Gerard Rhau opens his life to the readers and he discloses the events of being Chaplain for twenty-five years. He also opens up about his love for his family, his church, and the people around the world. He highlights the story when the Lord appeared to him when he was nine. He was carried by a wind which scared him but eventually came to his senses when he saw an image of his brother through the image which came down from heaven. The appearance of that image became his guiding light up to this day, as he was warned not to deal with the bad deeds that evilness had spread to the world. Twenty-seven years later, Gerard was revisited and this time as the Good Shepherd with His hands extended as a shepherd. He was instructed to run after a sheep until he caught it. And then he was called to preach the Gospel.

Today, the author celebrates his calling by sharing to the readers his experiences back when he was just starting to follow his calling. He had taken several roles but was brought back to his calling, and today he happily preaches and serves the Lord. He travels to places to preach the gospel and support the people who need guidance and enlightenment.

When the 7.0 Magnitude Earthquake Hit Haiti: My Personal Experiences is the perfect source of illumination. It denotes how being obedient to the Golden Rule of the Lord will lead one to the right path and will eventually lead the person to where he or she should be. In the author's favorite quote: "Do unto others as you would like others to do unto you...", summarizes the purpose of his book.
