

Automotive Steering Angle Measurement Sensor 2018 Global Market Expected to Grow at CAGR of 6.68% and Forecast to 2022

Wiseguyreports.Com Publish New Market Research Report On - "Global Automotive Steering Angle Measurement Sensor Market 2018"

PUNE, INDIA, January 12, 2018 /EINPresswire.com/ --

<u>Automotive Steering Angle Measurement Sensor Market 2018</u>

In the automotive industry, sensors are used to detect, measure, and transmit the data or information by continuously analyzing the performance of the vehicle. Automotive steering angle measurement sensors monitor and calculate the steering wheel movement. These sensors are placed along the steering column or the rack, depending upon the type of sensor, i.e., rotary or linear. These sensors continuously monitor the steering characteristics in relation to the chassis movement. The purpose of these sensors is to assist the driver in steering the vehicle by determining the intended direction of steering.

The analysts forecast the global automotive steering angle measurement sensor market to grow at a CAGR of 6.68% during the period 2017-2021.

Covered in this report

The report covers the present scenario and the growth prospects of the global automotive steering angle measurement sensor market for 2017-2021. The report presents a detailed picture of the market by way of study, synthesis, and summation of data from multiple sources.

The market is divided into the following segments based on geography:

- Americas
- APAC
- EMEA

Request a Sample Report @ https://www.wiseguyreports.com/sample-request/2657417-global-automotive-steering-angle-measurement-sensor-market-2017-2021

The report, Global Automotive Steering Angle Measurement Sensor Market 2017-2021, has been prepared based on an in-depth market analysis with inputs from industry experts. The report covers the market landscape and its growth prospects over the coming years. The report also includes a discussion of the key vendors operating in this market.

Key vendors

- Bosch
- Continental

- Delphi
- DENSO
- Sensata

Other prominent vendors

- Stoneridge
- Gill Sensors & Engine Controls
- Bourns
- Murata Manufacturing
- Hyundai KEFICO
- Hitachi Automotive Systems Americas

Market driver

- Increasing penetration rate of advanced steering-assisted functionalities
- For a full, detailed list, view our report

Market challenge

- Inherent signal fluctuation issues and wire harnessing problems
- For a full, detailed list, view our report

Market trend

- Development of portable steering wheel angle measurement sensor
- For a full, detailed list, view our report

Key questions answered in this report

- What will the market size be in 2021 and what will the growth rate be?
- What are the key market trends?
- What is driving this market?
- What are the challenges to market growth?
- Who are the key vendors in this market space?

Table of Contents – Analysis of Key Points

PART 01: Executive summary PART 02: Scope of the report

PART 03: Research Methodology

PART 04: Introduction

- Market outline
- Value chain analysis

PART 05: Market landscape

- Market overview
- Market size and forecast
- Five forces analysis

PART 06: Market segmentation by vehicle type

Market overview

PART 07: Market segmentation by geography

Market overview

PART 08: Decision framework PART 09: Drivers and challenges

Market drivers

Market challenges

PART 10: Market trends

- Development of portable steering wheel angle measurement sensor
- Development of 3D magnetic steering wheel sensor

PART 11: Vendor landscape
• Other prominent vendors

PART 12: Key vendor analysis

- Bosch
- Continental
- Delphi
- DENSO
- Sensata
