## Key Players

The key players of global Automotive Interior Components markets are Toyoda Gosei Co. Ltd (Japan), Toyota Boshoku Corporation (Japan), Lear Corporation (U.S), NTF India Pvt Ltd (India), Sage Automotive Interior Components. Inc (U.S), BASF Automotive Solutions (Germany), and Faurecia S.A (France).

## Market Scenario

The Automotive Interior Components typically refer to the interior components that are present in the cabin of a vehicle. This includes components such as cockpit, dashboards, door panels and seats.

Visual appearance of a car has become a dominant influencer on buyer's perception of vehicle quality, in recent times. Due to this, the Automotive Interior Components are increasingly gaining importance. There is a common OEM goal, of providing vehicles with good interior quality, feel and finish across the sector. The Automotive Interior Components are typically focused on ergonomics and comfort of passengers.

The automotive industry is one of the most competitive industries, across the globe. Major manufacturers across various continents often compete against each other to expand their customer base resulting in intense competition. This results in a high quality product being delivered to the customers, which drives the Automotive Interior Components market. The market is further expected to be driven by the rising level of income of individuals and the booming global automotive industry and is expected to reach valuation of USD 355.5 billion by 2022, growing at a rate of 7.07%

#### Intended Audience

- Distributer & Supplier companies
- End Users
- Consultants and Investment bankers
- Government as well as Independent Regulatory Authorities

#### Product Analysis

- Product matrix which gives a detailed comparison of the market for different recycled product types

#### Additional Information

- Regulatory Landscape
- Pricing Analysis
- Macroeconomic Indicators

#### Geographic Analysis

- Geographical analysis across 15 countries

#### Company Information

- Profiling of 10 key market players
- In-depth analysis including SWOT analysis, and strategy information of related to report title
- Competitive landscape including emerging trends adopted by major companies

The report for Global Automotive Interior Components Market of Market Research Future comprises of extensive primary research along with the detailed analysis of qualitative as well as quantitative aspects by various industry experts, key opinion leaders to gain the deeper insight of the market and industry performance. The report gives the clear picture of current market scenario which includes historical and projected market size in terms of value, technological advancement, macro economical and governing factors in the market. The report provides details information and strategies of the top key players in the industry. The report also gives a broad study of the different market segments and regions.
