

AppFutura's Top mobile app development companies of 2017

After an intense year of improvements on AppFutura, we come up with this new list of the best mobile app development companies of 2017.

BARCELONA, BARCELONA, SPAIN, January 12, 2018 /EINPresswire.com/ -- After an intense year of improvements on [AppFutura](#), 2017 is already over, and after checking the stats of our page, we come up with this new list of the [best mobile app development companies of 2017](#).

This ranking is formed considering the amount of proposals and projects developed through AppFutura during this last year. Also the amount of guests posts and the interaction these [mobile app development companies](#) have on AppFutura's forum. How complete the profiles are and the app project reviews on each one of them are also two of the parameters we have used for this listing of the best app developers worldwide.

We want to congratulate all those app developers that made it to the cut and are listed in this ranking of the best mobile app development companies of 2017 in AppFutura.

AppInventiv

AppInventiv has a team of more than 250 experts working on different platforms. In fact, this mobile app development company is one of the most diversified on AppFutura. The team has experience on platforms like iOS and Android as well as looking forward to develop addictive apps.

Ready4S

One of the oldest on AppFutura and the best mobile app development company of 2015, Ready4S has been working on different platforms while on AppFutura. It also has more than 45 apps listed on our app directory.

Mobulous

Mobulous has been on the mobile app development market for over 5 years now. It is one of the most diversified mobile app development companies in AppFutura. Their app developers work on different fields such as Healthcare, Augmented Reality, Games and Finance. The app development firm has a team that can make an app in different devices such as Android and iOS, but as well as on Apple Watch and Android TV, among others.

Konstant Infosolutions

Dedicated to help startups and other enterprises and small and medium business groups, Konstant Infosolutions develops for different platforms like iOS and Android. It also works on hybrid apps and

Windows app development.

Synergo Group

Based in Toronto, Synergo's team might be small compared to other mobile app development companies. Synergo builds totally new software improving the chances and the ability that the apps have to deliver impact and create value among their customers. Their mobile app solutions and effective webs are mainly focused on enterprises, small business and startups.

Techugo

Techugo has developed more than 200 apps for different platforms like iOS and Android and some e-commerce platforms. This mobile app development company also works on cross platform app development. Techugo has offices in three countries: India, United Arab Emirates and the United States.

Seasia Infotech

Though mobile app development is their main focus, Seasia also develops apps for Android Wear and the Apple Watch as well as for the Internet of Things devices. With offices around the globe like India, Australia and the Netherlands, Seasia has a mobile app development team with the possibility to make social media apps or game apps.

NoGravity

NoGravity has a team of mobile app developers specialized in IoT development. But their main interest on that field is the security a user will have when interacting with that mobile app or IoT product. IoT development is not the only service NoGravity offers, they also have a development team for both, Android and iOS platforms.

There are other app developers listed on our ranking. If you are looking for the best app development companies, make sure to check AppFutura's directory before you hire an outsourcing app development team.
