

Review the successes of 2017 and look to the future of AMR

SMi's Superbugs & Superdrugs Conference

LONDON, UNITED KINGDOM, January 15, 2018 /EINPresswire.com/ -- London, 19 - 20 March 2018 - SMi's [Superbugs & Superdrugs Conference](http://www.superbugssuperdrugs.com) 2018 will gather a high level of international experts and project decision makers to review the successes of 2017 and look to the future of AMR. Two full days of information, education and networking not to be missed.

The image is a promotional graphic for the SMi's 20th Annual Conference. It features a dark background with a microscopic view of various bacteria in shades of purple and blue. The text is overlaid in white and purple. At the top right is the SMi logo. The main title 'Superbugs & Superdrugs 2018' is in a large, bold, purple font. Below it, in white, is 'Copthorne Tara Hotel, London UK'. A purple rectangular box contains the dates '19 - 20 MAR' in white. Below that is the website 'www.superbugssuperdrugs.com' in white. At the bottom, in white, is 'Superbugs & Superdrugs Conference'.

All participants will gain the knowledge and get informed on the latest development within scientific communities and on strategies pharmaceutical companies using to develop novel therapeutics. There will also be a large focus on novel candidates and alternatives to antimicrobials; Greater coverage of the regulations, further funding possibilities and partnerships and strategies.

The workshop on March, 21st will focus on the transition from in vitro activity to in vivo efficacy, the choice of the right animal model for proof of concept studies, provide examples of relevant animal models with supportive data and interpretation of results as they relate to the clinical condition.

You will: gain an understanding of what animal models can and cannot provide; learn how animal model endpoints relate to clinical endpoints; access in depth discussion of how models are performed; get insights on regulations and constraints in the performance of these models.

Further details including a full speaker line-up and detailed programme are available at <http://www.superbugssuperdrugs.com/EIN>
