

# Nor-Tech Announces Lenovo Tiny Series, Laptops, Chromebooks, Desktops for Education

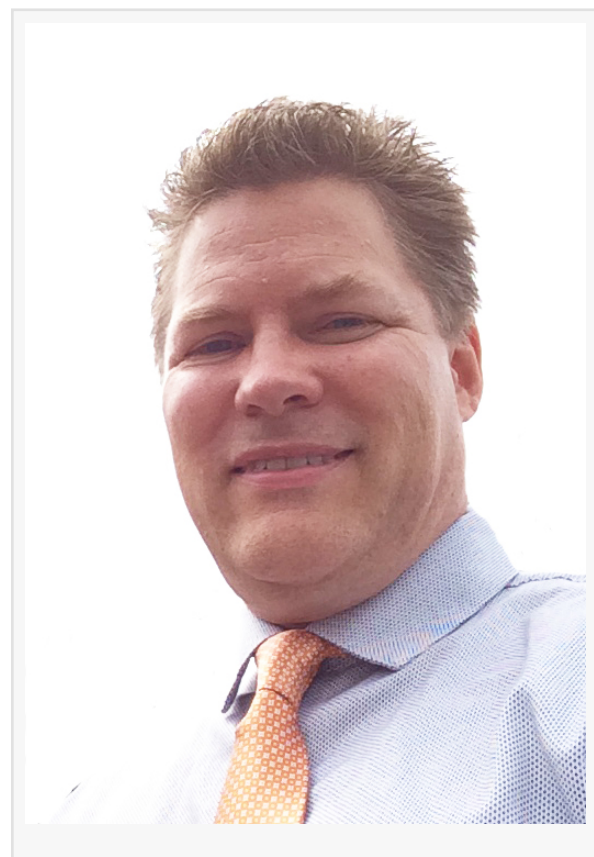

*Nor-Tech just announced a full line of Lenovo products for schools. Nor-Tech also customizes-to-spec its own cost-effective Voyageur desktops for schools.*

MINNEAPOLIS, MINN., U.S., January 15, 2018 /EINPresswire.com/ -- Nor-Tech, one of the world's leading technology providers, just announced a full line of Lenovo products for schools, including Lenovo mini computers, laptops, Chromebooks, and desktops. Nor-Tech also customizes-to-spec its own cost-effective Voyageur desktops for schools.

Nor-Tech Executive Vice President and General Manager Jeff Olson said, "Schools have trusted us for more than two decades to provide the highest quality technology at the best possible price. We work primarily with Lenovo because they have the same dedication to quality, performance and economy that we have. Like us, they have the reputation to back it up."

The technology Nor-Tech provides to classrooms is:

- Designed for teachers: Easy to deploy and intuitive to use.
- Optimized for the learning experience: access to resources, information and functionality in 1-2 clicks.
- Powerful: Many of the tiny systems, laptops, Chromebooks and desktops have more power, features, flexibility and expandability for the price than any other technology.
- Sturdiness/Repair-ability: Nor-Tech's technology is built to survive the day-to-day mishaps that occur

in classrooms. When necessary, repairs are straightforward with little downtime. If damaged beyond repair, Voyageur desktops are easy for the company to clone.

“

In addition to the quality and performance of the equipment and competitive pricing, we have developed a solid reputation for outstanding customer service throughout Minnesota's school system.”

*Nor-Tech Executive Vice President and General Manager Jeff Olson*

“In addition to the quality and performance of the equipment and competitive pricing, we have developed a solid reputation for outstanding customer service throughout Minnesota's school system,” Olson said. “As we continue to expand our footprint in the K-12 market from coast-to-coast, we pledge to maintain those same high standards.”

To find out more about Nor-Tech's products for K-12 schools, visit: <https://www.nor-tech.com/solutions/desktops/schools/>.

Nor-Tech has been at the forefront of education-related technology for more than 20 years and is Google Chrome Management Console Authorized, a Lenovo Gold Partner, a

Microsoft Silver Certified Partner and Microsoft MVP Award winner, Intel Platinum Level Technology

Provider, Authorized Intel Integrator, and Platinum-level AMD Solution Provider.

The company built an international reputation as a leading innovator of easy-to-deploy technology for a full range of applications—consistently mentioned in the same context as Dell, HP and Lenovo. Nor-Tech is renowned throughout the education, scientific, academic, and business communities for outstanding client service. All of Nor-Tech's technology is made by Nor-Tech

in Minnesota and supported by Nor-Tech around the world. In addition to being a reseller for leading brands, Nor-Tech's custom technology includes high performance clusters, workstations, desktops, and servers. The company has been in business since 1998 and is headquartered in Burnsville, Minn. just outside of Minneapolis. To contact Nor-Tech call 952-808-1000/toll free: 877-808-1010 or visit <http://www.nor-tech.com> to find out more or take advantage of Live Chat.
