"Stack8's strength comes from a deep focus on helping our customers to achieve the promise of digital communications," explained David Perlis, COO at Stack8. "Cary understands Stack8's unique culture and mission. He is a superb leader, and I am sure as we head into our 8th year anniversary, he will be integral to our continued success. I look forward to watching him excel in his new role for many years to come."

Cary brings more than 20 years experience in managing and mentoring operations in multiple organizations to his new role at Stack8. Prior to joining the team, Cary held key leadership positions for various companies including International Rail (Railkey), Motorleaf, and Coradiant which was acquired by BMC Software.

"Stack8 is transforming how organizations manage digital communications with its truly revolutionary services and solutions," said Cary Goldwax, Vice President of Operations at Stack8. "I'm genuinely excited to be heading these diverse and talented teams and look forward to helping Stack8 achieve continued growth and operational efficiency."

About Stack8
We work with Cisco UC customers who need to reduce the cost and complexity of keeping their UC environment running efficiently and want to minimize (or eliminate) user frustrations around system performance.
Essentially, we are Cisco UC specialists, that provides a mix of managed services, proactive automation, and in-depth expertise to address both the mundane and complex Cisco problems, helping organizations maximize both the frequency and range of use of the technology. Unlike traditional Cisco partners, our approach addresses Cisco UC issues, and opportunities more thoroughly, reducing the delays and frustrations that arise when expertise is lacking and helping to identify quick wins to get more value from the system, building confidence and support in the user community.

Founded in 2010, Stack8 Technologies is an independent, privately held company based in Montreal, Canada. To find out more, please visit www.stack8.com
