APAC [Car-sharing Market](#)

Description

WiseGuyReports.Com adds" Car-sharing Market in APAC 2015-2019 "Research To Its Database.

Car-sharing is a membership-based, self-service system that contains a network of stations and vehicles, which is an alternative to the traditional car ownership for individuals and companies. In this system, vehicles are owned by a separate firm, organization, or individuals and are shared by users for short periods of time. Over the past three decades, car-sharing has grown from a basic service provided by popular organizations to a widely recognized urban transport industry. It is also quickly developing into a globalized industry, providing many transportation, land use, environmental, and social benefits.

Covered in this Report

This report covers the present scenario and growth prospects of the car-sharing market in APAC for the period 2015-2019. To calculate the market size, Technavio takes into account the number of cars engaged in car-sharing services in five major countries in APAC.
