

IT Governance to showcase compliance solutions and present at the GDPR Summit London

ELY, UNITED KINGDOM, January 18, 2018

[/EINPresswire.com/](http://EINPresswire.com/) -- IT Governance, the world leader in the field of data protection, risk management and compliance solutions, is delighted to be joining an exciting panel of speakers at the GDPR Summit London this January. IT Governance will also be showcasing its General Data Protection Regulation (GDPR) products and solutions to support organisations with their GDPR compliance projects.

This popular event aims to bring together the latest expertise in information security and GDPR compliance, anticipating the need for across-the-board comprehension of and preparation for the demands the Regulation will have on organisations and individuals alike.

The talks, panel discussions and networking sessions will offer the opportunity to explore topics such as GDPR developments, data breach response strategies, the interaction between GDPR compliance and core business goals, and how to harness the GDPR to drive growth.

Alan Calder, the founder and executive chairman of IT Governance, said: "We are looking forward to participating in the GDPR Summit London, and relish this timely opportunity to contribute to a better understanding and smoother implementation of this paramount change in data protection regulation."

One of IT Governance's top GDPR consultants, Gloria Ophar-George, will be speaking at the event on the topic 'An Overview of Subject Access Requests under the DPA vs GDPR' and will be focusing on: how to minimise the number of Subject Access Requests, and how to develop and implement a Subject Access Request strategy to comply with GDPR.

The summit will take place on 30 January at 155 Bishopsgate in London, near Liverpool Street Station. Visit the [event website](#) to register and see the agenda, including speakers and seminar topics. Clients and delegates are also encouraged to visit IT Governance at stand No. 9.

As a leading provider of GDPR expertise and solutions, IT Governance can support organisations in initiating and maintaining a compliance project through certified GDPR training courses, books, documentation toolkits, staff awareness, compliance tools and consultancy.

To find out how IT Governance can help organisations comply with the GDPR's requirements, see our extensive [GDPR products and solutions](#). For further assistance, visit the [IT Governance website](#), email servicecentre@itgovernance.co.uk or call +44 (0)333 800 7000.
