

Tooling Composites 2018 Global Market Expected to Grow at CAGR of 7.69% and Forecast to 2023

Wiseguyreports.Com Publish New Market Report On -"Tooling Composites Market - Global Industry Analysis, Size, Share, Trends, Growth and Forecast 2018 - 2023"

PUNE, INDIA, January 17, 2018 / EINPresswire.com/ --

Tooling Composites Market 2018

The molds utilized for shaping composites are known as tools. These tools are made using materials including polymers, metals, and ceramics. The designs of the various applications vary from each other and the selection of composite materials is based on the properties of thermal expansion, desired requirement, method of cure, transition temperature of the material being molded, cost, and various other considerations. High-end production tools are made of strong metals that can withstand numerous cycles and retain surface and dimensional accuracy. Carbon fiber, epoxies, ceramics, and metals are primarily used in these production types.

The analysts forecast the global tooling composites market to grow at a CAGR of 7.69% during the period 2017-2021.

Covered in this report

The report covers the present scenario and the growth prospects of the global tooling composites market for 2017-2021. The report presents a detailed picture of the market by way of study, synthesis, and summation of data from multiple sources.

The market is divided into the following segments based on geography:

- Americas
- APAC
- EMEA

Request a Sample Report @ https://www.wiseguyreports.com/sample-request/2176186-global-tooling-composites-market-2017-2021

The report, Global Tooling Composites Market 2017-2021, has been prepared based on an indepth market analysis with inputs from industry experts. The report covers the market landscape and its growth prospects over the coming years. The report also includes a discussion of the key vendors operating in this market.

Key vendors

- Airtech Advanced Materials Group
- Hexcel
- Koninklijke Ten Cate
- Solvav
- Sika

• TEIJIN

Other prominent vendors

- BASF
- Celanese
- Formaplex
- GKN Aerospace
- Gurit Holding
- Honeywell
- HYOSUNG
- · Kaman Aerosystems
- KOLON
- Magna International
- PRF Composite Materials
- TPI Composites
- The Dow Chemical
- SGL Group

Market driver

- Demand from aerospace and automotive industries
- For a full, detailed list, view our report

Market challenge

- Volatility in raw material prices and high manufacturing costs
- For a full, detailed list, view our report

Market trend

- Tooling composites in 3D printing
- For a full, detailed list, view our report

Key questions answered in this report

- What will the market size be in 2021 and what will the growth rate be?
- What are the key market trends?
- What is driving this market?
- What are the challenges to market growth?
- Who are the key vendors in this market space?

Complete Report Details @ https://www.wiseguyreports.com/reports/2176186-global-tooling-composites-market-2017-2021

Table of Contents - Analysis of Key Points

PART 01: Executive summary PART 02: Scope of the report

PART 03: Research Methodology

PART 04: Introduction

Overview

PART 05: Market landscape

- Global tooling composites market
- Five forces analysis

PART 06: Market segmentation by application

Global tooling composites market by application

- Global tooling composites market in aerospace
- Global tooling composites market in automotive
- Global tooling composites market in construction
- Global tooling composites market in wind energy
- Global tooling composites market in military and marine
- Global tooling composites market in others

PART 07: Market segmentation by raw material

- Global tooling composites market by raw material
- Global tooling composites market in polyester
- Global tooling composites market in glass fibers
- Global tooling composites market in vinyl esters
- Global tooling composites market in epoxies
- Global tooling composites market in others

PART 08: Geographical segmentation

- Global tooling composites market by geography
- Tooling composites market in the Americas
- Tooling composites market in APAC
- Tooling composites market in EMEA

PART 09: Decision framework

PART 10: Drivers and challenges

- Market drivers
- Market challenges

PART 11: Market trends

- Tooling composites in 3D printing
- Use of thermoplastics in wind energy
- Green infrastructure
- Demand from bicycling industry

PART 12: Vendor landscape

- Competitive scenario
- Other prominent vendors

PART 13: Key vendor analysis

- Airtech Advanced Materials Group
- Hexcel
- Koninklijke Ten Cate
