

# VRidge 2.0 - HTC Vive emulator

*A software that allows you to change your phone into HTC Vive headset gets a huge 2.0 update.*

BIALYSTOK, PODLASKIE, POLAND, January 30, 2018 /EINPresswire.com/ -- VRidge - A software that emulates HTC Vive on Cardboard receives a huge 2.0 update. Scheduled to be released January 30th it brings completely rewritten code base and plenty of new features:

- Completely new user interface
- Streaming quality adjustment during streaming
- Improved stability
- Support for additional integrations
- Moonlight support
- Multi-language support

The new code base will be used as a foundation to future features like more tracking options, additional hand controllers support and streaming performance optimization.

Beta access to 2.0 Update is described in the most recent Blog dev entry. It can be used as a review version for the January 30th release:
