

Jennifer Tipton of SleekEZ Grooming Tool to be Featured on CUTV News Radio

BILLINGS, MONTANA, UNITED STATES, January 19, 2018

[/EINPresswire.com/](http://EINPresswire.com/) -- Jennifer Tipton is the inventor and manufacturer for the SleekEZ grooming tool for shedding animal hair. Whether your pet is a big shaggy dog or a majestic horse.

“It started out more for horses, they shed their winter coats continually,” says Tipton. “This helps it go a lot faster. It pulls the hair off in sheets. It's better than the normal combs where you have to tap the hair out and it makes a flurry of hair everywhere. It's since evolved to a more rounded tool.”

The SleekEZ grooming tool benefits both the animal and their owner. It's great for removing hair off furniture. It also removes dirt and dander. It's perfect for horses in the summer too. It makes them shiny and doesn't remove the oil off the coat. Still, Tipton says the dog market is probably SleekEZ's strongest market because dogs shed year-round.

Tipton had been working in horse dentistry for 15 years when one day the idea for the SleekEZ just came to her.

“It was something that I felt was attainable,” recalls Tipton. “Doing horse dentistry, I got to try it on different horses and fine-tune it. I just happen to know my market very well. I think that has a lot to do with my success. I am fortunate to have a product that works well. It's affordable and it's worth its value. It's inspiring for a lot of people because it's such a simple idea.”

Pet owners should know, the SleekEZ, although simple, is more than meets the eye.

“People try to make one on their own and can create something that's actually dangerous for their animal. The SleekEZ is patented. This isn't something you're going to make at home.”

CUTV News Radio will feature Jennifer Tipton in an interview with Doug Llewelyn on January 23rd at 1pm EST.
