

Antimicrobial Coatings Global Market 2018 Key Players, Share, Trend, Segmentation And Forecast To 2025

Market Analysis Research Report On Global Antimicrobial Coatings Market 2018 Industry Growth, Size, Trends, Share And Forecast To 2025 To Their Research Database

PUNE, INDIA, January 19, 2018

/EINPresswire.com/ -- [Global Antimicrobial Coatings Market](#)

[Antimicrobial Coatings](#) provide an extra line of defense and complementary strategies for maintaining hygiene standards and public health. They reduce the risk of infected surfaces acting as a source for transmission for infectious bacteria to food and humans. Some of the major types of bacteria which are observed on the paint coatings are Escherichia Coli (E.a), Pseudomonas aeruginosa (P.a.), Listeria and Bacillus subtilis among others.

Global Antimicrobial Coatings Market

These coatings also provide economical and environment advantages by reducing the frequency of painting, labour and chemical costs. Biocides such as silver, copper and Titania are added to paint formulations to enhance the product from microbial attack and provide added protection against fungal and algal growth. They also prevent the stain and deterioration of paint caused by these bacteria.

The antimicrobial coatings market has grown tremendously over the past decade with new and improved products spearheading the market. The market has expanded crossing geographical boundaries and serving a truly global customer base.

Antimicrobial coatings are witnessing increase in demand from various industries that include electronics, pharmaceuticals, construction, food and packaging and various others. These coating are most commonly used in healthcare for sterilization of all healthcare equipment. These end users utilize antimicrobial coatings for a number of applications and to varying extents. The medical and HVAC industries are the largest markets for antimicrobial coatings driven by safety needs, particularly

in North America.

The following key players were identified in our research and extensively profiled in the report analysis:

AkzoNobel Coatings Inc
Dow Chemicals
BASF
PPG Industries
RPM International
Sherwin-Williams

This market has been analyzed by raw material type such as inorganic coatings, organic coatings and others. In this report, the Antimicrobial Coatings market is further segmented into type, end user and geography. Types include Escherichia Coli, Pseudomonas, Listeria and others. Major end users wherein these coatings are used are Construction, Pharmaceuticals, Textiles, Food Processing & Packaging, HVAC, and Electronics.

Antimicrobial Coatings – Market Overview

1. By Raw Material
 - 1.1.1. Inorganic Coatings
 - 1.1.2. By Type
 - 1.1.3. By End User
 - 1.1.4. By Geography
2. Executive Summary
3. Market Landscape
 - 3.1. Market Share Analysis
 - 3.2. Comparative Analysis
 - 3.2.1. Product Mapping
 - 3.2.2. End User Profiling
 - 3.2.3. Top 5 Financials
4. Antimicrobial Coatings - Market Forces
 - 4.1. Market Drivers
 - 4.1.1. Increase in Incidence of Hospital Acquired Infections (HAIS)
 - 4.1.2. Increasing Number of Surgical Procedures
 - 4.1.3. Rise in Geriatric Population
 - 4.1.4. Increasing Awareness Among End Consumers
 - 4.2. Market Constraints
 - 4.2.1. Government and Regulatory Oversight On Products
 - 4.2.2. Reluctance To Change the Existing Treatment Practices
 - 4.2.3. Improper Usage of Personal Protective Equipment
 - 4.2.4. Entry Barriers Are Greater in Established Markets
 - 4.2.5. Price Wars Are Keeping Average Selling Prices Low
 - 4.3. Market Challenges
 - 4.3.1. Threat of Antibiotic Resistance
 - 4.3.2. Prevention of Infectious Organism and Disease
 - 4.3.3. Donning & Doffing of Hospital Housekeeper and Enviromental Service Staff
 - 4.3.4. Slow Adoption Rate in Asia & Europe
 - 4.4. Attractiveness of the Industry
 - 4.4.1. Power of Suppliers

- 4.4.2. Power of Customers
- 4.4.3. Threat of New Entrants
- 4.4.4. Threat of Substitution
- 4.4.5. Degree of Competition
- 5. Global Antimicrobial Coatings Market – Strategic Analysis
 - 5.1. Value Chain Analysis
 - 5.2. Pricing Analysis
 - 5.3. Opportunities Analysis
 - 5.4. Supplier and Distributor Analysis
 - 5.5. Market Life Cycle Analysis
- 6. Antimicrobial Coatings Market- By Raw Material Type
 - 6.1. Inorganic Coatings
 - 6.1.1. Silver
 - 6.1.2. Copper
 - 6.1.3. Others
 - 6.2. Organic
 - 6.3. Others
- 7. Antimicrobial Coatings Market- By Type
 - 7.1. Escherichia Coli
 - 7.2. Pseudomonas
 - 7.3. Listeria
 - 7.4. Others
- 8. Antimicrobial Coatings Market – By End-User
 - 8.1. Photo Catalytic Coatings
 - 8.2. HVAC
 - 8.3. Food Processing and Packaging
 - 8.4. Construction
 - 8.5. Mold Remediation
 - 8.6. Medical
 - 8.7. Textiles
 - 8.8. Others
 - 8.8.1. Electronics
 - 8.8.2. Pharmaceuticals
- 9. Antimicrobial Coatings Market-By Region
 - 9.1. Introduction
 - 9.2. Americas
 - 9.2.1. U.S.
 - 9.2.2. Canada
 - 9.2.3. Mexico
 - 9.3. Europe
 - 9.3.1. Germany
 - 9.3.2. France
 - 9.3.3. U.K.
 - 9.4. Asia Pacific
 - 9.4.1. China
 - 9.4.2. India
 - 9.4.3. Japan
 - 9.5. Rest of the World
 - 9.5.1. Middle East
 - 9.5.2. South Africa
- Continued....
