FOR IMMEDIATE RELEASE

STEVE'S AUTOMOTIVE: THE REGION'S BEST CLASSIC CAR REPAIR SHOP

Steve's Automotive is Longmont's premier class car repair and maintenance shop

Longmont, CO: Steve's Automotive owner and operator Steve Powers specializes in the [maintenance and repair of classic cars](#) and trucks — hot rods, street rods, and muscle cars. Steve and his staff have over 100 years of combined experience restoring and working on classic cars. If you can name the car, they've fixed it!

Steve is a well-known member of Longmont classic car associations and clubs, so customers don't have to search far for a reference. Additionally, car owners can call in or drop by for a free quote. If looking to acquire a classic car, Steve's Automotive can conduct a [Pre-Purchase Inspection](#) to assess the condition of the vehicle and the number of repairs and replacements that will be required. For those new to classic cars, Steve's Automotive is the perfect option: everything will be explained in layman's terms, so customers will understand why each service is needed.

Maintaining classic cars is as much an art as it is a skill. At Steve's Automotive, the staff will masterfully fine tune a car until it runs better than the day it was made, giving customers peace of mind, whether they cruise around in their car or save it for display at car shows. Classic Car Services at Steve's Automotive include:

- Engine and Transmission Repairs
- Front End and Alignment Work
- Brake Systems Repairs
- Complete and Repair wiring
- Clutch Repair
- Carburetor Work
- Cooling and Heating Systems
- Preventative Maintenance
- Safety Checks
- Inspections

More information on services can be found on Steve's Automotive website at

<http://www.stevesautorepairlongmont.com/services/>.

Steve's Automotive technicians are ASE Certified and expertly trained to provide quality repair work. Steve, as a classic car owner himself, treats each classic car as if it were his own. Rather than checking only for obvious, common problems with the vehicles, the staff uses their experience with a broad range of makes and models to find small issues before they grow to major worries. Usually, they'll have seen an issue before and know how to fix it before a car even rolls onto the lot.

About Steve's Automotive: Steve's Automotive is a full service automotive shop in Longmont, Colorado. Owner Steve Powers has been operating in Longmont since 1993 and often assists with car shows and events in the community.

Steve's Automotive provides a full range of services for both foreign and domestic vehicles, including SUVs and light trucks. In most cases, vehicle repairs are done in one day, getting cars back on the road quickly. Additionally, Steve is passionate about and committed to the service and maintenance of classic cars. His work ranges from normal maintenance to replacing transmissions and installing entire vintage air systems.

With decades of experience on the team, they'll work hard to have you driving smoothly out of the shop in no time. For service estimates and appointments, call (303) 682-9015 or visit <http://www.stevesautorepairlongmont.com/> for more information.
