"It is such an honor to win this scholarship from 1Dental!" said Virginia. "Dental health has always been very important to me, and I am so glad I got the chance to participate in this scholarship! I would like to thank everyone at 1Dental for this opportunity and for selecting me as the winner. As a single mom trying to go back to school, this is a huge help! I am extremely excited to use the funds toward my educational goals during the upcoming academic year! Thank you for your support!"

Virginia is a sophomore at Lansing Community College in Michigan. She is a single mom who is going to school for business administration. She has been awarded \$500 to apply to her college degree this Spring or Fall. Out of 8,259 applicants, Virginia was our lucky winner!

1Dental has offered an annual scholarship to high school seniors and college students alike since 2014. The business hopes to encourage continued education as well as healthy living among all students through their scholarship program. This year's scholarship required students to fill out a survey asking about their opinions on the health and dental industry, as it pertains to insurance plans and appointments at dentist and doctor's offices.

1Dental will be compiling the results of these surveys into easy-to-digest pieces of content that can be helpful to the health industry as they try to promote good health to this younger generation.

The 2018 [1Dental Scholarship](#) survey was a tremendous success. Keep an eye out for our reports in the coming months. The scholarship will soon be updated with 1Dental's 2019 scholarship and is open to all eligible students. Students enrolled in a high school (seniors only), college or university are encouraged to take part in this scholarship opportunity.

Congratulations, again, to Virginia for winning the 2018 1Dental Scholarship. Best of luck to you!
