

With 40% Market Share Europe Continues to Dominate Methylene Diphenyl Diisocyanate (MDI) Production

Latest Report Global Methylene Diphenyl Diisocyanate (MDI) Industry Market Research 2017 is now Available from MarketResearchReports.com

LEWES, DELAWARE, DELAWARE, UNITED STATES, January 22, 2018 /EINPresswire.com/ -- Methylene diphenyl diisocyanate, most often abbreviated as MDI, is an aromatic diisocyanate. its major application in rigid polyurethane foams which are extensively used as insulation in buildings, and electronic appliances. MDI is mostly used for manufacturing rigid polyurethane foams, which are widely used as insulators in construction, consumer appliances, industrial applications, packaging and other such applications. It is also used in non-foam applications such as Elastomers, paints & coating, and adhesives & sealants.

The MDI can be classified as Pure MDI and Polymerized MDI. Polymerized MDI controls the major market share in comparison to pure MDI. North America and Europe controls the major market share in terms of production.

Application of MDI:

- MDI Foams
- Paints and Coatings
- Adhesive and Sealants.
- Synthetic Leather and Fabric Coating
- Elastomers

The report analyses the Methylene Diphenyl Diisocyanate (MDI) industry from two aspects. One part is about its production and the other part is about its consumption. In terms of its production, we analyze the production, revenue, gross margin of its main manufacturers and the unit price that they offer in different regions from 2012 to 2017. In terms of its consumption, we analyze the consumption volume, consumption value, sale price, import and export in different regions from 2012 to 2017. We also make a prediction of its production and consumption in coming 2017-2022.

At the same time, we classify different Methylene Diphenyl Diisocyanate (MDI) based on their definitions. Upstream raw materials, equipment and downstream consumers analysis is also carried out. What is more, the Methylene Diphenyl Diisocyanate (MDI) industry development trends and marketing channels are analyzed.

Finally, the feasibility of new investment projects is assessed, and overall research conclusions are offered.

The report can answer the following questions:

1. What is the global (North America, South America, Europe, Africa, Middle East, Asia, China,

Japan) production, production value, consumption, consumption value, import and export of Methylene Diphenyl Diisocyanate (MDI)?

2. Who are the global key manufacturers of Methylene Diphenyl Diisocyanate (MDI) industry? How are their operating situation (capacity, production, price, cost, gross and revenue)?
3. What are the types and applications of Methylene Diphenyl Diisocyanate (MDI)? What is the market share of each type and application?
4. What are the upstream raw materials and manufacturing equipment of Methylene Diphenyl Diisocyanate (MDI)? What is the manufacturing process of Methylene Diphenyl Diisocyanate (MDI)?
5. Economic impact on Methylene Diphenyl Diisocyanate (MDI) industry and development trend of Methylene Diphenyl Diisocyanate (MDI) industry.
6. What will the Methylene Diphenyl Diisocyanate (MDI) market size and the growth rate be in 2022?
7. What are the key factors driving the global Methylene Diphenyl Diisocyanate (MDI) industry?
8. What are the key market trends impacting the growth of the Methylene Diphenyl Diisocyanate (MDI) market?
9. What are the Methylene Diphenyl Diisocyanate (MDI) market challenges to market growth?
10. What are the Methylene Diphenyl Diisocyanate (MDI) market opportunities and threats faced by the vendors in the global Methylene Diphenyl Diisocyanate (MDI) market?

Objective of Studies:

1. To provide detailed analysis of the market structure along with forecast of the various segments and sub-segments of the global Methylene Diphenyl Diisocyanate (MDI) market.
2. To provide insights about factors affecting the market growth. To analyze the Methylene Diphenyl Diisocyanate (MDI) market based on various factors- price analysis, supply chain analysis, porte five force analysis etc.
3. To provide historical and forecast revenue of the market segments and sub-segments with respect to four main geographies and their countries- North America, Europe, Asia, and Rest of the World.
4. To provide country level analysis of the market with respect to the current market size and future prospective.
5. To provide country level analysis of the market for segment by application, product type and sub-segments.
6. To provide strategic profiling of key players in the market, comprehensively analyzing their core competencies, and drawing a competitive landscape for the market.
7. To track and analyze competitive developments such as joint ventures, strategic alliances, mergers and acquisitions, new product developments, and research and developments in the global Methylene Diphenyl Diisocyanate (MDI) market.

About Market Research Reports, Inc.

Market Research Reports® Inc. is world's largest store offering quality market research, Country SWOT analysis, Energy Storage Industry Reports. We help Fortune 500 to Start-Ups with the latest market research reports on global & regional markets which comprise key industries, leading market players, new products and latest industry analysis & trends.
