

# K2 Energy Solutions, Inc. ("K2") announces hiring James Getzen as a Business Development Manager.

HENDERSON, NV, USA, January 23, 2018 /EINPresswire.com/ -- [K2 Energy Solutions](#), Inc. ("K2") announces hiring James Getzen as a Business Development Manager. This position was added to support the significant and on-going growth K2 is experiencing. Prior to joining K2, Mr. Getzen served as an Account Manager for a leading Battery Manufacturer. Mr. Getzen will be working in the Sales and Marketing Team within K2 Energy and he will be joining them at several energy and battery tradeshows in the immediate future.

James Getzen

"We're excited to secure James as part of the K2 team," said Sean Campbell, K2's Vice President of Sales and

Marketing. "James has experience in the Li-ion Battery field and a history of energetically identifying how to add value to his customers' offerings that will greatly benefit those interested in K2's Li-ion Batteries. James has a belief in creativity and collaboration when it comes to building professional relationships," states Campbell. "We think James' abilities and experience will be a strong addition to our team."

“

I believe K2 will become a driving force in the market for both large and small battery modules, cells, packs and systems."

*James Getzen*

"I am devoted to discovering new opportunities," said Getzen, "and K2's focus on customization and growth will open new opportunities for companies with unique energy storage requirements. I am enthusiastic to help these innovators meet the growing demand for clean energy products. I believe K2 will become a driving force in the market for both large and small battery [modules](#), [cells](#), packs and systems."

K2 Energy was founded in the growing technology hub of Henderson, Nevada in 2006, and is a leading developer and producer of Lithium Iron Phosphate batteries, which are used in many advanced medical, industrial, and military applications as well as powering a variety of electric vehicles. The Company produces both energy-optimized and power-optimized products, which have a multitude of consumer, product, safety, and environmental benefits compared to traditional lead acid batteries.

K2 Energy not only provides cutting edge technology in the Lithium ion energy storage market, but

has a world class team of scientists and engineers with extensive knowledge and experience in all aspects of energy storage design, systems integration, manufacturing, support testing and quality control. K2 offers inception to implementation (turnkey) solutions for our customers. Our knowledge base encompasses from the cell to the pack and system level while being able to optimize battery solutions to achieve customer goals.
