

## CUTV News Radio Spotlights VIE de Rouvray of Institute of Biostimulation of Light and Sound

ORLANDO, FLORIDA, UNITED STATES, January 23, 2018 /EINPresswire.com/ --

There are many people who wish to make the world a better place. There are other even more dedicated humans who possess the acute ability to actually heal souls spending their lives compassionately helping others find eternal love and happiness.

VIE is a vibrational healer, Shaman, Light therapist, spiritual mentor and the creator and owner of Institute of Biostimulation of Light and Sound. She is also the author of "911 complete guide to natural healing," "Time is ticking the fifth Amendment," "Karma through the window of time," "New Century New Age New Experiences" and currently working on her next book "Intonex; The secret Harmony of Life." The mystery of a sacred shamanic journey unveiled."

"It's my mission to reconnect people's DNA and realign the body," says VIE. "To help people raise their frequency since the whole world is all about frequency and energy working in unison with light, music, and the body. That's what I do with light and color, and when I speak the Sacred sound of the language of the light."

VIE was born with this acute ability and when she was a youngster felt different and wasn't adjusting with other children, she was more highly sensitive and perceptive. She created a new therapy called Bio-qi (chi) therapy TM comprised of light, energy, frequency, and sound which is the language she speaks. Through her writing, she also guides people to awaken and have more clarity of mind. To discern and intuit better and get aligned on their rightful path and be prepared to take their body of light. She reconnects them to the heart center through the reconnection of DNA and reconnect people to their angels and raises their frequency to the appropriate level necessary for the fifth dimension. The immune system and the cells are then stimulated and the body begins to self- heal.

"My books are essential because it's pertaining to spiritual growth and the evolution of the planet" says VIE. "The earth is adjusting right now and as a healer and writer it's all cohesiveness. People need to be reconnected and be able to discern better some hidden truth so by reading my books that are just like stories engaging their minds. A gentle and easy way to enlightenment and spiritual growth"

According to VIE the body is a holographic body of light. When the body is not at the right frequency level then individuals experience illness resulting in taking medication. Drugs are chemicals that don't belong to the body and absolutely cannot address the imbalance of the frequency or the energy to self-heal.

"People have lost connection and knowledge and humanity," says VIE. "It's disheartening how doctors are not trained and don't have the knowledge of the importance of the colors and of the frequency of colors in general. Each organ has its own color and corresponds to a meridian point. Like chakras, that are vortex of energy have their own color. If one organ is depleted or have an excess of colors, it's first seen in the aura. Any imbalance in the body is visible in the aura. When not corrected on time symptoms appears. After a while it becomes a disease. If doctors would know about energy, color and frequency people could learn and understand."

It's vital that people find their way out of the third dimension which keep you a slave and prisoner. To find eternal solace and happiness they must make it to the fifth dimension which is all about freedom, compassion and eternal love.

"Nobody should be dying of starvation and living in poverty," says VIE. "None of that terrible suffering will be in the Fifth dimension. Human beings should be worried about their soul and their body frequency, have clarity of mind, and their whole body should be aligned. Everyone on this earth has a mission. People must all do their part to help the world"

CUTV news will feature VIE de Rouvray in an interview with Jim Masters January 24th at 11 a.m. EST.
