

Global Lipid Nutrition Market is Expected to Reach \$12.19 billion by 2023

Market Research Report on Global Lipid Nutrition Market

RAIPUR, INDIA, January 23, 2018
/EINPresswire.com/ --

Report Sellers has added a new market research report "[Lipid Nutrition - Global Market Outlook \(2017-23\)](#)" to its offerings.

According to Report, [Global Lipid Nutrition Market](#) is expected to grow from \$5.69 billion in 2016 to reach \$12.19 billion by 2023 with a CAGR of 11.4%.

The lipid nutrition market is fueled by technological advancements and innovations. Recent trends of vegan food habit and supplementary diet by the urban population across the globe is expected to increase the growth of the market. Increasing health issues, awareness about the benefits of lipid nutrition, rising demand for lipid nutrition in infant formula, animal nutrition and dietary supplements and the demand to meet the nutritional requirements of an aging population are the factors propelling the market growth. However, limited supply of fish oil and environmental regulations are hindering the market growth.

By type, the Omega-3 segment holds the largest market share due to its health benefits. Also technological advancement such as microencapsulation led to the demand in the purchase of capsules, oils, and functional foods containing Omega-3 acids. With innovations on the rise omega3 products are now used in beverage, juices, baby foods, baked products, baking oils and fortified dairy products while earlier they were only used in spreads and yogurt. Also growing significance of omega3 in infant formula has led to the growth of this segment.

Geographically, Asia Pacific holds for the largest share in the market due to rising infant and women nutrition markets along with diet diversification and the liberalization of foreign direct investments in the food sector. China dominates the Asia Pacific region owing to huge consumption of lipid nutrition in infant nutrition and animal nutrition sectors.

Some of the key players in the Lipid nutrition market are Omega Protein Corporation, FMC Corporation, Qualitas Health, Koninklijke DSM N.V., Croda International PLC, Solutex Inc, Cargill, Polaris Nutritional Lipids, Archer Daniels Midland Company, Kerry Group PLC, Reckitt Benckiser Group PLC, Lipoid GmbH, Luhua Biomarine, Nordic Naturals Inc, Copeinca, Neptune Wellness Solutions, Corefx Ingredients, Tecnologica De Alimentos Sa (Tasa), Nature's Way Products LLC and Stepan Company.

Global Lipid Nutrition Market Research Report

What does the Report Offers

- Market share assessments for the regional and country level segments
- Market share analysis of the top industry players
- Strategic recommendations for the new entrants
- Market forecasts for a minimum of 7 years of all the mentioned segments, sub segments and the regional markets
- Strategic recommendations in key business segments based on the market estimations
- Competitive landscaping mapping the key common trends
- Company profiling with detailed strategies, financials, and recent developments

Report Scope

Global lipid nutrition market has been segmented by forms covered, sources covered, types covered, distribution channels covered and regions covered

Forms covered:

Liquid
Powder

Sources covered:

Plant Source
Animal Source

Types covered:

Medium-Chain Triglycerides (MCTS)
Omega-6
Omega-3
Large-Chain Triglycerides (LCTs)
Other Types

Distribution Channels covered:

Indirect
Direct

Regions Covered:

North America
US
Canada
Mexico
Europe
Germany
France
Italy
UK
Spain
Rest of Europe
Asia Pacific
Japan

China
India
Australia
New Zealand
South Korea
Rest of Asia Pacific
South America
Argentina
Brazil
Chile
Rest of South America
Middle East & Africa
Saudi Arabia
UAE
Qatar
South Africa
Rest of Middle East & Africa
