

Wind Power in Mexico Market 2017-By Facilitate Decision Making on the Basis of Historic and Forecasts Data 2030

PUNE, MAHARASHTRA, INDIA,
January 24, 2018 /EINPresswire.com/ --

WiseGuyReports published new report,
titled "Wind Power in Mexico"

Summary

"Wind Power in Mexico, Market Outlook to 2030, Update 2017 - Capacity, Generation, Levelized Cost of Energy (LCOE), Investment Trends, Regulations and Company Profiles", is the latest report from the industry analysis specialists that offer comprehensive information and understanding of the wind power market in Mexico.

The report provides in depth analysis on global renewable power market and global wind power market with forecasts up to 2030. The report analyzes the power market scenario in Mexico (includes conventional thermal, nuclear, large hydro and renewable energy sources) and provides future outlook with forecasts up to 2030. The research details renewable power market outlook in the country (includes wind, small hydro, biopower and solar PV) and provides forecasts up to 2030. The report highlights installed capacity and power generation trends from 2006 to 2030 in Mexico wind power market. A detailed coverage of renewable energy policy framework governing the market with specific policies pertaining to wind power is provided in the report. The research also provides company snapshots of some of the major market participants.

The report is built using data and information sourced from proprietary databases, secondary research and in-house analysis by team of industry experts.
