For the consumers in the GCC countries, the largest part of their expenditure is currently in food products. The total consumer spending on food in all the Middle East countries, combined, is projected to reach 108 billion by 2021. Among all the GCC countries, UAE spends the most on food products, after Saudi Arabia. The increase in consumption of fruits and vegetables in the country is attributed to the growing expatriate population and economic prosperity. Among the GCC countries, UAE has the highest expatriate population of about 85.5%.

This report outlines the above statistical data in an analytical point of view and covers the Imports, Exports, Production and Consumption Trends of the market along with the Government Regulations that are effecting he market.
