

Media Consolidation Group Releases Its Guaranteed Advertising Program

Media Consolidation Group has released its newest proprietary algorithm that allows businesses & products to advertise on their massive advertising network.

FRANKLIN, TENNESSEE, UNITED STATES, January 25, 2018

/EINPresswire.com/ -- [Media Consolidation Group](https://www.mediaconsolidationgroup.com/) is excited to announce the release of our proprietary advertising algorithm that was built on the top of our massive advertising networks. We built this for the other businesses that our organization runs and operates which allowed us to focus on the small businesses. But our proprietary advertising algorithm will work with any business, any service, any product, and its pricing is within reach of any size organization. Not to mention the pricing is a flat rate, so there is no bidding or guessing what your bill will be at the end of the month. We also put a money back guarantee on the traffic, so if you do not get the traffic you paid for we didn't do our job and will refund your money.

Since we have kept the small business in mind the setup process is extremely easy; simply order the product and our team will do the rest. The worst case scenario they may have a couple of questions by email for you.

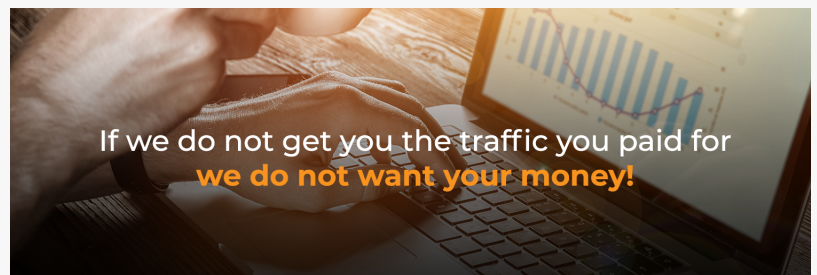

So if you are tired of bidding, overpaying, and not know what your advertising bill will cost you every month on services like Google, Bing, Yelp, Yp... ditch them and welcome to the easier way! That way is MediaConsolidationGroup.com
