

The best app development companies in the United States

AppFutura has listed the best app developers in the United States. AppFutura is a mobile app development companies directory and app projects marketplace.

BARCELONA, SPAIN, SPAIN, January 26, 2018 /EINPresswire.com/ -- AppFutura is a [mobile app development companies directory](#) and app projects marketplace. Among the more than 5,000 app developers listed, there are [mobile app development companies based in the United States](#) or, at least, have a commercial office in the country.

One of the benefits of developing any app on the United States is the huge market share it can reach minutes after the public release. Some stats on the ComScore 2017 U.S. mobile app report show that the App Store and Play Store most used mobile apps were developed by mobile app development companies based in the United States. On the same report, Facebook, Google, WhatsApp, Instagram, Google Maps and Snapchat are some of the most used apps in the country.

AppFutura has listed the best mobile app development companies in United States on this new top. The following is not a ranking as it has been automatically organised.

OCDLab

Aiming to make life easier, OCDLab has the interest on developing mobile apps as simple as possible. They believe great inventions that have changed the world are simple, so their goal is developing a simple software as well, but looking for innovation and giving different solutions to the client.
