*OrgHarvest plans to build 100,000 sqft high tech glass greenhouse that will generate 500 pounds of flower per week*

INCLINE VILLAGE, NEVADA, USA, January 26, 2018 /EINPresswire.com/ -- Today OrgHarvest has announced a 10 million dollar funding agreement from the sovereign fund of Qatar. The funds will be used to purchase land and assemble a 100,000 square foot greenhouse imported from the Netherlands for the first project from OrgHarvest. The company originally planned to launch in Washoe County Nevada. An opportunity to purchase a production and cultivation license in Henderson, Clark County Nevada created an opportunity to serve many of the forty-five million tourists that come to Las Vegas each year to have a good time. The Las Vegas area has some 50 dispensaries serving the community. OrgHarvest plans to enter the California market in the near future. We continue to look for opportunities that will fit our business model.

#### Market

Recent research indicates that the Cannabis industry has been growing steadily and rapidly since the passage of laws allowing the distribution of Marijuana. According to Oakland based Marijuana Angel Investment Network, The ArcView Group (Executive Summary, 5th Edition), national legal sales for 2016 grew to \$6.7 billion from \$5 billion in 2015, fueled by explosive growth in adult use market sales. The growth continues a robust pattern that ArcView estimates will lead to a \$22.6 billion market in 2021 at a 27% compound annual growth rate.

In November 2016, a new set of regulations paved the way for a recreational Marijuana market in Nevada. The State of Nevada began recreational sales on July 1, 2017, which is expected to register a compound annual growth rate of 42% over the next five years thus adding up to \$433 million in sales annually by 2021. The evolving legal environment combined with changing public attitudes are all factors contributing to a perfect storm to cultivate industry growth.
