

Smart metering's role in strategies towards Ofwat's PR19 goals. Get insights at the SMI's event this April

LONDON, UNITED KINGDOM, January 26, 2018 /EINPresswire.com/ -- The price review is an important tool for delivering trust in water. PR19 provides the framework for a resilient long-term future for the industry, providing more of what matters to customers at a price they can afford and are willing to pay. PR19 is part of Water 2020, the overall vision Ofwat have for the water sector in England and Wales.

At the SMI's [Smart Water Systems Conference](#) this April a Panel Discussion on “How will smart metering play a role in strategies towards PR19 goals”, will look into questions of collection and communication of data to customers and the wider public; Meeting expectations of network resilience and affordability and Digitization as the only path for innovation and improved efficiency. Leading the debate are:

- Jeremy Heath, Innovation Manager, Sutton & East Surrey Water Plc
- Ben Earl, Water Efficiency Manager, Southern Water
- Andrew Tucker, Water Efficiency & Affordability Manager, Thames Water
- Bob Stear, Deputy Chief Engineer, Severn Trent Water Ltd

Alongside the conference is an interactive workshop where representatives from Artesia Consulting will explore the options for using data analytics and visualisation to help operate water networks more efficiently (24th April 2018)
