

Applied Defense Solutions, Baader Planetarium GmbH and L3 Technology join Military Space Situational Awareness 2018

SMi Group Reports: Conference Organisers SMi have updated the Military Space Situational Awareness agenda

LONDON, UNITED KINGDOM, January 30, 2018 /EINPresswire.com/ -- The Military Space Situational Awareness Conference is back for its 13th year and will feature an unprecedented line-up of some of the most prominent industry, research and military thought-leaders that will enable you to Enhance Situational Awareness Capabilities to Ensure the Security of Vital Space Assets.

A brand-new brochure is now available to download today at: <http://www.military-space.com/einpr>

New additions to the brochure include:

[three new leading sponsors](#): Applied Defense Solutions, Baader Planetarium GmbH and L3 Technology.

Along with [three new speakers](#) from: OneWeb, Applied Defense Solutions and Surry Space Center.

1. Dr Tim Maclay, Director, Mission Systems Engineering from OneWeb will be presenting: "How OneWeb Works to Responsibly Reduce the Impact of Mega-LEO Constellations on Space Congestion. Covering:

- Critical considerations to mitigate space congestion obligations and ensure the safe and efficient operation of military and commercial satellites
- SSA capabilities to reduce risk of collisions and SAT damage
- Working with military, civil and industry partners to encourage sustainable mega-constellation practices

2. Thomas Kubancik, Vice President of Advanced Programs from Applied Defense Solutions will be presenting: "Exploitation of Advances in Commercial Space Situational Awareness for Military Applications". Covering:

- Sensor calibration and sensor monitoring for establishing trust
- Persistent monitoring of objects in GEO
- Correlation of multiple phenomenologies for better situation awareness

- Advanced light curve analysis

3. Simon Fellowes, RemoveDebris Mission PM, Surry Space Center (SSC) – “RemoveDEBRIS: Leading the Way with an Innovative Active Debris Removal (ADR) Mission”. Covering:

- Surrey Space Center and Partners: an example of what can be achieved with industry and academia collaboration
- Launch onboard the SpaceX CRS-14
- ADR experiments and mission goals
- A precursor to future operational ADR missions?

The full agenda/brochure is now available to download for free from the event website at:
