

# Costly Homeseller Mistakes Common But Avoidable

LOS ANGELES, CALIFORNIA, USA, January 30, 2018 /EINPresswire.com/ -- The traditional ways of selling homes have become increasingly less and less effective in today's market. The fact of the matter is that fully three quarters of homesellers don't get the money they want for their home and become disillusioned and worse financially disadvantage when they put their home on the market. According to area realtor Rudy L. Kusuma, however, much of the problem relates back to some basic mistakes that homeowners make without even realizing it. These mistakes are easy to fix, he says.

"You can basically lump most of the issues into 7 common mistakes which I see over and over", says Rudy L. Kusuma.

"It has nothing to do with the homeowners's level of competence, but a lot to do with their awareness of certain issues. When I deal with homesellers, I educate them on these 7 common mistakes right from the start. The difference in ultimate results and their level of satisfaction with the process is measurable."

Rudy L. Kusuma has published a report called "The 9 Step System to Get Your Home Sold Fast and For Top Dollar" which not only itemizes the seven mistakes he alludes to, but also provide homesellers with a 9-Step System that will help them get the most money they can for their home in the shorted amount of time. "This is very important information for homesellers to have no matter who they list their home with". Says Rudy L. Kusuma
