Mountz will be displaying the latest torque testing & assembly technology

Discover new assembly solutions developed for engineers in order to deal with the most demanding fastening applications. Since 1965, Mountz Inc. has proven its in-depth knowledge of torque and fastening solutions. Mountz will showcase many new products and solutions at the MD&M West event.

- Power Assembly & Automation Torque Tools
- Torque Screwdrivers
- Torque Wrenches
- Torque Testers & Sensors
- ESD Safe Screwdrivers
- Clean Room Screwdrivers

Using a quality torque tool makes a safer world through accuracy and precision. Controlling torque is essential for companies to ensure their product's quality, safety and reliability isn't compromised. The failure of a three-cent fastener that isn't properly tightened can lead to catastrophic or latent failures. Fasteners that are insufficiently fastened can vibrate loose and excessive torque can strip threaded fasteners.

For 33 years, MD&M West (Medical Design & Manufacturing) has helped take medical devices from concept to market by uniting cutting-edge technology with the industry's foremost minds.
