## [Water Leakage Detector Systems Market 2018](#)

The global leak detection market for the oil and gas industry is expected to grow during the forecast period. The reason for the market's growth is the rising demand for oil and gas pipeline projects, especially at offshore locations. Offshore locations are highly preferred for oil and gas pipeline projects due to the shift of oil and gas operations to high-pressure areas and deep-water zones. The increased demand for clean energy resources has boosted the demand for natural gas resources.

The analysts forecast the global water leakage detector systems market to grow at a CAGR of 6.09% during the period 2017-2021.
