

# Connected Medical Device Market Analysis 2018 (By Segment, Key Players and Applications) and Forecasts To 2022

*Connected Medical Device Market 2018 Global Analysis, Opportunities and Forecast to 2022*

PUNE, INDIA, February 1, 2018 /EINPresswire.com/ -- Report Scope:

This report covers the global market for connected medical devices and a regional analysis of North America, Latin America, Europe, Middle East and Africa and Asia-Pacific. Component segments include sensors (temperature, position, pressure, flow, level and other), platforms (connectivity, data application integration, device management) and processors. Other technologies such as chemical, force, image, SQUID, biosensors and spintronics are discussed qualitatively. The market for embedded microprocessors and microcontrollers is also sized and analyzed.

Report Includes:

- An overview of the global market for [connected medical device](#) technologies.
- Analyses of global market trends with data from 2015 and 2016, and projections of compound annual growth rates (CAGRs) through 2021.
- Discussion of underlying technologies driven by the connected medical device trend.
- An in-depth analysis of CMD technologies by type: specifically connected medical device sensors, platforms and processors.
- Information on the changing regulatory landscape and competitive dynamics, including critical success factors, such as research and development capability, installed base, branding and ecosystem influence, and partnerships.
- Profiles of major players in the industry.
