

Sankalp Semiconductor opens a New Design Center in Ahmedabad

- Appoints Samir Shroff as Head of Ahmedabad Design Center
- Center of excellence for ASIC design, verification & backend

BANGALORE, KARNATAKA, INDIA,
February 5, 2018 /EINPresswire.com/ --

Sankalp Semiconductor, a design service company offering comprehensive digital & [mixed signal SoC services](#) and solutions, today announced opening of a new design center in Ahmedabad. The company already has three design centers in India (Hubli, Kolkata and Bangalore). Sankalp Semiconductor has executed multitude of complex digital and mixed signal SoC (System-On-Chip) projects for variety of its customers in Automotive, Consumer, Networking, Wireless, IoT, Medical, Foundry verticals.

Sankalp Ahmedabad Center will reinforce its ability to build teams and provide end-to-end ASIC solution & services.”

Samir Patel, CEO, Sankalp Semiconductor

“Semiconductor companies prefer outsourcing to services providers with ability to provide end-to-end services, Sankalp Ahmedabad Center will reinforce its ability to build teams and provide end-to-end ASIC solution & services. We are also excited to have Samir Shroff join the team to head the Ahmedabad Design Center, he brings in wide experience of establishing and scaling ASIC teams.” said Samir Patel, CEO

Sankalp Semiconductor.

“I am delighted to join the engineering team at Sankalp Semiconductor, and look forward to closely working with customers and partners to provide high quality ASIC solutions and services offerings. Sankalp Ahmedabad center will be a center for excellence for SoC design, verification and physical design services enabling customers with complex chip design.” Said Samir Shroff, Head Sankalp Semiconductor, Ahmedabad.

Samir Shroff has more than 24 years of experience in US & India in building strong teams for ASIC Design, Verification & Physical Design, Embedded systems and in executing numerous projects for worldwide technology companies.

Sankalp Semiconductor was founded in 2005 with a focus to serve the semiconductor companies primarily offering analog & mixed signal design services. Today, Sankalp with a team of 700+ engineering professionals has design centers in Hubli, Bengaluru, Kolkata and Ahmedabad in India and Ottawa, Canada. The company provides unique advantage to its semiconductor customers by enabling them at any point of semiconductor services life cycle with the ability to provide end-to-end solutions.

About Sankalp Semiconductor

Sankalp Semiconductor offers an integrated portfolio of services and solutions to its customers in key semiconductor domains including analog & mixed signal, digital, high-speed physical interface IP, Embedded Memory Compiler, IOs and EDA modelling. Sankalp Semiconductor is a preferred semiconductor design service partners to multiple Fortune 500 companies in the Automotive, Consumer, Networking, Wireless, IoT, Medical electronics and Foundry space. The company enables its customers to achieve their time-to-market window by delivering first pass silicon designs and engage with product engineering teams across the globe to design System-on-Chip. Sankalp Semiconductor is based in Sunnyvale, California, with offices in USA, India, Canada, Germany and Malaysia. www.sankalpsemi.com
