

Macular Edema Market Segmentation, Growth, Global Trends, Opportunity & Forecast 2017 to 2022

PUNE, MAHARASHTRA, INDIA,
February 6, 2018 /EINPresswire.com/ --

WiseGuyReports.com with their unique quality of simplifying the market research study, presents a deep diving study report "Macular Edema (RVO) - Pipeline Review, H2 2017"

Macular edema

Overview

Macular edema is swelling or fluid retention in a specialized part of the retina called the macula. Symptoms of macular edema include blurred or wavy central vision and/or colors appear changed. There are many causes of macular edema. It is frequently associated with diabetes, where damaged blood vessels in the retina begin to leak fluids, including small amounts of blood, into the retina.

Other causes include Macular Edema, side effects of certain medications and certain genetic disorders, such as retinoschisis or retinitis pigments.

Macular Edema Industry Major Highlights:

Macular Edema - Pipeline Review, H2 2017, provides comprehensive information on the therapeutics under development for Macular Edema (Ophthalmology), complete with analysis by stage of development, drug target, mechanism of action (MoA), route of administration (RoA) and molecule type. The guide covers the descriptive pharmacological action of the therapeutics, its complete research and development history and latest news and press releases.

The report further guide in identifying and tracking emerging players in the market and their portfolios, enhances decision making capabilities and helps to create effective counter strategies to gain competitive advantage. Additionally, various dynamic tracking processes ensure that the most recent developments are captured on a real time basis.

Macular Edema (Ophthalmology) pipeline guide helps in identifying and tracking emerging players in the market and their portfolios, enhances decision making capabilities and helps to create effective

Macular edema

counter strategies to gain competitive advantage.

Major Outlook of Macular Edema Report:

The pipeline guide covers pipeline products based on several stages of development ranging from pre-registration till discovery and undisclosed stages.

- The pipeline guide features descriptive drug profiles for the pipeline products which comprise, product description, descriptive licensing and collaboration details, R&D brief, MoA & other developmental activities.
- The pipeline guide reviews key companies involved in Macular Edema (Ophthalmology) therapeutics and enlists all their major and minor projects.
- The pipeline guide evaluates Macular Edema (Ophthalmology) therapeutics based on mechanism of action (MoA), drug target, route of administration (RoA) and molecule type.
- The pipeline guide encapsulates all the dormant and discontinued pipeline projects.

The pipeline guide provides a snapshot of the global therapeutic landscape of Macular Edema (Ophthalmology).

- The pipeline guide reviews pipeline therapeutics for Macular Edema (Ophthalmology) by companies and universities/research institutes based on information derived from company and industry-specific sources.

Competitive Analysis for Macular Edema

Key players are making innovative developments in Macular Edema industry. The same will help in improving the market performance. Heavy investments are made by major players in the R&D sector.

The key players in this market are: ActiveSite Pharmaceuticals Inc, Coherus BioSciences Inc, Lupin Ltd, Mabion SA, OMEICOS Therapeutics GmbH, Promedior Inc, Taiwan Liposome Company Ltd and Xbrane Biopharma AB.
