

Vicky Simson Opens a Project on Kickstarter for Samurai King Zenith Kitchen Knives

Vicky Simson opens a project on Kickstarter for the ultra-sharp Zenith Knives. The knives are made from premium material using AUS 08 Steel.

LONDON, UNITED KINGDOM, February 11, 2018 /EINPresswire.com/ -- Vicky Simson, the founder of Samurai King is announcing the campaign for their Zenith knives on Kickstarter. These unique knives come with 67 layers of Damascus Steel and are sharpened using the Solinger Dunnschliff craftsmanship. Combined with Pakka wood Handles that provide better grip.

Compared to other knives, this knife comes with additional features. For instance, the knives are light weight, well balanced, sharp and pocket friendly.

Their designed is focussed on one thing: High performance.

People concerned about the weight and sharpness of their knives can now stop worrying, because Zenith knives are made of high grade steel AUS 08 and have a Rockwell Hardness of up to 60 HRC, which enable Zenith to retain its ultra-sharpness for a long time.

The core of the Zenith line is the Santoku Knife, which is the Japanese equivalent to the Western Chef's Knife. It is true that it is used in the similar way, but it offers lesser room for a rocking motion, which is a feature generally found in western knives. The knives are mirror polished and feature V-Ground edge with a 7-13 degree cutting angle and an Ergo-designed handle.

The campaign is going live in a few days, interested people may visit their website where you are able register in order to get notified as soon as the campaign goes live. The website can be found at: <https://www.krowdster.co/l/7664>

About Vicky Simson:

Vicky Simson is an entrepreneur based in London, United Kingdom. Samurai King is his newest venture into the world of high quality kitchen accessories. Zenith is his first crowdfunding project, but with some help by well-known manufacturing partners from Germany he intends to deliver a high quality and long lasting product.
