IntelliBoard to Release Major Platform Upgrade Spring, 2018

IntelliBoard, Inc. -the reporting and analytics Premium Integrator for the Moodle LMS- is excited to announce their platform upgrade launch in spring, 2018.

MONROE, CT, UNITED STATES, February 19, 2018 /EINPresswire.com/ -- IntelliBoard, Inc. is thrilled to announce a major platform upgrade for spring, 2018. Folks using the Moodle LMS will have access to an expanded, configurable administrator dashboard that includes significant new features: LISA, an AI assisted natural-language search tool; configurable monitors that display reports and analytics based upon your desired data; LENA, the Learning Engagement Notifications Area to create notifications on conditional events; MAX, an ad hoc reporting tool; BYOD, the ability to build and configure dashboards based on specific permissions, and advanced aesthetics/improved interface.

> "
> This platform upgrade marks a huge leap in our development, and the comprehensive reporting and analytics tools we provide to our clients."
>
> *Anatoliy Kochnev*

Anatoliy Kochnev, IntelliBoard's CEO expressed his excitement and appreciation for the client contributions that helped to influence the the new platform build: "This platform upgrade marks a huge leap in our development, and the comprehensive reporting and analytics tools we provide to our clients. Because of the tremendous relationship we have with our customers, we listen and implement their suggestions. Our team of talented, knowledgeable developers have been working for 6 months to build the 'new' IntelliBoard - and their efforts are spectacular. View them for yourself - data is at your fingertips like never before."

Mr. Kochnev continues, "New tools require strong support. Part of the IntelliBoard client relationship includes a strong support team. Our Client Services team is unmatched in its dedication to ensure that you are successful with IntelliBoard."

Using the IntelliBoard tools will bring educational decision makers closer to the metrics that influence how learning is delivered, how learning happens, the tools that facilitate learning, and overall learner performance. Specific tools within IntelliBoard help to highlight high- and low-performing learners, tracking, compliance measurement, competencies, and engagement.

To view a sneak peak of the platform in action, schedule a demo, or view the IntelliBoard website. Further details will be released the first week of March, 2018.
