

# TSI FMS Monitoring Software Gains OPC Foundation Certification

*TSI announces that the TSI FMS Facility Monitoring Software passed thorough function and performance testing to achieve OPC Foundation Certification.*

SHOREVIEW, MINNESOTA, UNITED STATES, February 13, 2018 /EINPresswire.com/ -- TSI Incorporated, manufacturer of real-time viable particle counters and airborne particle counters for contamination control monitoring, is pleased to announce that the TSI [FMS Facility Monitoring Software](#) is now [OPC Foundation](#) certified. To become certified, the product passed thorough function and performance testing to assure end-users that the product meets or exceeds expectations for compliance, interoperability, robustness, and resource efficiency.

"TSI's FMS OPC UA Client/Server removes common barriers to communication, allowing critical data to efficiently and securely move around a facility to where it's needed," states Tim Russell, TSI Global Product Manager. "OPC Foundation's Certification Program assures that our OPC UA Client/Server meets strict requirements for interoperability and reliability thereby reducing risk and system integration costs."

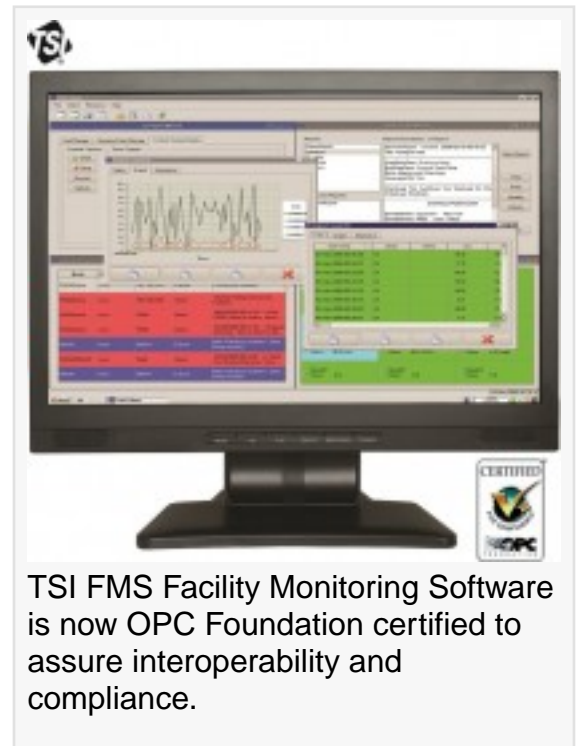

TSI's FMS OPC UA Client/Server functionality decreases installation costs by simplifying facility monitoring system design, offering easy and immediate access to real-time and historic data from all sensors connected to FMS---ensuring product quality and patient safety. Integrated with TSI's AeroTrak® Remote Particle Counters, FMS OPC UA Client/Server securely shares data between industrial platforms with ease and reliability, enabling transfer of critical facility monitoring system data to centralized enterprise reporting systems such as LIMS and ERP.

## ABOUT TSI INCORPORATED

TSI Incorporated serves a global market by investigating, identifying and solving measurement problems. As an industry leader in the design and production of precision instruments, TSI partners with research institutions and customers around the world to set the standard for measurements relating to aerosol science, health and safety, indoor air quality, air flow, fluid dynamics and biohazard detection. With headquarters based in the U.S. and field offices throughout Europe and Asia, TSI has established a worldwide presence in the markets we serve. Every day, our dedicated employees turn research into reality.

Molly Doran

TSI FMS Facility Monitoring Software is now OPC Foundation certified to assure interoperability and compliance.
