

# Nor-Tech Announces Affordable Desktops, Laptops, Tablets, for Offices

*Nor-Tech just announced an expanded portfolio of desktops, laptops and tablets for offices.*

MINNEAPOLIS, MINN., U.S., February 13, 2018 /EINPresswire.com/ -- Nor-Tech just announced an expanded portfolio of desktops, laptops and tablets for offices.

Nor-Tech Executive Vice President and General Manager Jeff Olson said, “Our clients want reliable technology that is easy to set up and manage, will perform office functions well, and will last a long time—both from durability and capability perspectives. This is exactly what we deliver.”

Nor-Tech has strong relationships with technology manufacturers such as HP, and is a preferred reseller of Lenovo brand desktops and laptops. This gives the company a price advantage over most competitors. Nor-Tech’s Voyager brand desktops, built in Minnesota, offer quality and custom features only found in much higher-priced desktops. They include the best components for the application and no trial ware, bloat ware, ad ware, or unnecessary platforms; each desktop is ready to use as soon as it is unboxed.

The company also guarantees timely, industry-leading support from its Minneapolis area facility.

For more than 20 years, businesses around the world have trusted Nor-Tech for leading-edge, high-quality, cost-effective technology backed by the company’s outstanding customer service.

“We have worked hard to be a leading supplier of technology for offices,” Olson said. “It’s really about experience, expertise, and smart, cost-effective solutions that meet or exceed the needs of our clients.”
