

# The Verdict Is In: The ANSI-ASQ National Accreditation Board (ANAB) Is Unofficial and Dubbed Anti-American

*ANAB's accreditation body China-led IAF is under heavy scrutiny for repeated violations of State Department sanctions*

WASHINGTON, DC, USA, February 14, 2018 /EINPresswire.com/ -- As feuds between patriotic Americans and opponents heat up across the country, one organization (ABAC) is taking the leadership role for veterans and patriots nationwide in effort to push forward President Trump's America First agenda. At the core of the movement are two

accreditation bodies in head-to-head competition for the accreditation of ISO certifications issued to businesses in the United States. One being China-led IAF ([International Accreditation Forum](#)). The other, USA-led ABAC (American Board of Accredited Certifications). In other words, China vs America.

“

Foreign-led accreditation bodies such as IAF overseeing U.S. national security, economic interests, and government agencies must end now, and I guarantee you it will”

*Daryl Guberman*

Daryl Guberman (<http://www.DarylGuberman.com>) an inspiring candidate for United States Senate (I-CT) and CEO of AB AC-accredited G-PMC Group, LLC (<http://www.g-pmc.com>) is spearheading a valiant campaign to expose those involved in the China-led IAF accreditation scheme. For the last 6 months Guberman has been calling out politicians, corporate executives and their collaborators embezzling money from tax payers through an unofficial, Anti-American accreditation racket involving China-led International Accreditation Forum.

One organization heavily involved in the racket is Connecticut-based [Connstep](#), under the leadership of Bonnie Del Conte, who recently came under investigation by the Connecticut Attorney General's Office for her questionable business practices as shown here:

[http://www.dguberman.com/CONNSTEP\\_Complaint\\_2.pdf](http://www.dguberman.com/CONNSTEP_Complaint_2.pdf)

Guberman released over 600 videos on Youtube revealing the leadership of seedy organizations behind an unofficial accreditation theory involving the ANSI-ASQ National Accreditation Board (ANAB) and China-led International Accreditation Forum (IAF) in collaboration with culprits of federally-funded Manufacturing Extension Partnership (MEP). Guberman bravely names the politicians state-by-state and their corporate cronies behind ANAB's unofficial accreditation scheme colluding with accomplices employed by the National Institute of Standards and Technology (NIST).

The video can be seen at [https://youtu.be/5O3GdXF9\\_vA](https://youtu.be/5O3GdXF9_vA)

Guberman's latest production exposes a deeply disturbing alliance between ANAB's oversight body (International Accreditation Forum) with mineral countries in violation of State Department rules. The video is titled 'The Unofficial, Self-Serving Hypocrisy of IAF and Its Deliberate Violations of U.S. Sanctions.' The video is located at <https://youtu.be/yfJhad3IFgc>

State records show China-led International Accreditation Forum (IAF) is no stranger to

controversy. The troubled organization came under scrutiny late last year after it was discovered it provided sensitive information to member-entities operating in Iran, North Korea and other terrorist states. The full story can be found at <http://bit.ly/2o2ZMub>

The legendary Italian polymath Galileo once said, 'all truths are easy to understand once they are discovered; the point is to discover them,' said Guberman. "It is our purpose and duty as American citizens to inform, educate, and protect businesses and officials from being controlled and victimized by a foreign-led entity over-seeing sensitive documentation and quality management systems," said Guberman. He added, "The videos unmask the government officials, federal employees, corporate executives, and tax-funded organizations behind the accreditation deception operating as a ponzi-like scheme relying primarily on cronyism for expanding its bogus authority and influence." Guberman said such foreign oversight is designed to grasp and maintain a stranglehold on American commerce, from small machine shops and manufacturers, to large aerospace and automotive giants such as Lockheed Martin and Boeing, both of which are currently over-seen by China-led IAF.

Henry Kroger, spokesman and advisor for The American Board of Accredited Certifications (<http://www.aboac.org>) said ANAB and IAF leadership and profiteers such as Connstep often utilize quasi-governmental jargon to deceive businesses into believing an authority that does not exist. "In the simplest of terms, ANAB and its oversight body IAF is unofficial, unauthorized, and clearly Unjustified." said Kroger.

G-PMC Group Chairman Donald LaBelle, founder of [VOB 9009](#), an honorary, federally-recognized certification program exclusively for veteran-owned businesses, said "Companies in this great country seeking ISO certification have an important choice when it comes to accreditation. One option is China-led International Accreditation Forum (IAF). The other option is USA-led American Board of Accredited Certifications (ABAC)." He concluded, "The choice is a simple one, America first."

The late President John F. Kennedy once warned the American people of a foreign-led oversight scheme attempted in the 1960's similar to the ANAB-IAF accreditation racket as a means to gain influence and control over American commerce. Kennedy said, "We are opposed around the world by a monolithic and ruthless conspiracy that relies primarily on covert means for expanding its sphere of influence, on infiltration instead of invasion, on subversion instead of elections, on intimidation instead of free choice. Its preparations are concealed, not published, its mistakes are buried, not headlined, its dissenters are silenced, not praised. No expenditure is questioned, no rumor is printed, no secret

is revealed."

Guberman said Kennedy's speech was clearly a warning of foreign oversight bodies (organizations and committees) controlling American commerce and interests in both private and government sectors such as China-led IAF which disturbingly has signatories over-seeing U.S. military, diplomatic, intelligence, economic, environmental, scientific, and political operations.

"Foreign-led accreditation bodies such as IAF overseeing U.S. national security, economic interests, and government agencies must end now, and I guarantee you it will," said Guberman.
